

Dear Home Health Provider,

The February 2024 guidance regarding community providers billing Health First Colorado (Colorado’s Medicaid program) fee-for-service when providing services to students in the school setting is being clarified and updated by the Department of Health Care Policy & Financing (the Department). The Department has been working with federal partners on this important subject and has received clarification that community providers may be allowed to bill fee-for-service for services provided to children during school hours and while at school.

There are specific requirements for providers to bill for these services, and providers are encouraged to carefully read the [May 3, 2024, letter regarding Community Providers in School Settings](#) linked on the [Private Duty Nursing web page](#) and the [Home Health web page](#).

Contact HomeHealth@state.co.us with any questions about this important update.

Thank you,

Department of Health Care Policy & Financing
