RAE Administrative Payment Report

| RAE Name | Region Number | State Fiscal Year | Reporting Period | | |
|---------------------------|---------------|-------------------|------------------|-----------|--|
| Northeast Health Partners | 2 | 2019 | 7/1/2018 | 6/30/2019 | |

Purpose: As part of the contract (Section 12.12.5), each Regional Accountable Entity (RAE) is required to provide a detailed report of the payment arrangements made with Network and Health Neighborhood providers. Specifically, this report should include descriptions of payment arrangements for the RAE's physical health PMPM Administrative Payment and any Key Performance Indicator (KPI) incentive payments with their contracted providers. These arrangements should involve varying payment models and payment amounts for varying types of service. This deliverable provides a high level description of each RAE's payment arrangement strategy.

Instructions: Please complete the following table with the requested information below. Please do not include information on behavioral health PMPM payments, as these are considered service payments. Please include any supplemental and supporting documentation and policies as necessary.

Description: In the box below, please give a high level overview (4-5 sentences) of your strategic approach to your arrangements. Please clarify payment reform, practice transformation, and network capacity assumptions used to develop your approach.

All PCPs are contracted at the Contribution type of arrangment. PCPs are offered a Practice Assessment Tool to assess the PCP based on the level of care and service they provide. Based on the results of the assessment, the PCP will be eligible for one of the Type of Arrangements below. Staff will discuss with PCPs on the opportunities to improve their practice for a more integrated medical home and provider supports through an interdisciplinary team to develop a practice transformation plan and track the improvement. PCPs can be re-assessed as them move along the PCP structure as they meet practice transformation goals.
