

**COLORADO**  
Department of Health Care  
Policy & Financing

Dear Pharmacy Provider,

For facilities that are not currently enrolled and would like to participate in COVID-19 Antiviral Distribution, complete the [Request for CDPHE-distributed COVID-19 therapeutics form](#) to initiate the process. Interested sites must already be licensed by the Colorado State Board of Pharmacy to dispense outpatient medications.

Visit the [Information about outpatient COVID-19 therapeutics for health care providers web page](#) to review the list of all pharmacies distributing antivirals.

For new information on the federal Test to Treat program, refer to the [Assistant Secretary for Preparedness and Response](#) fact sheet. In this program, people will be able to get tested for COVID-19. If they are positive and treatments are appropriate for them, they can receive a prescription from an on-site health care provider and have their prescription filled all in one location. Patients can also bring their own positive results from at-home tests or outside testing locations.

Email [cdphe\\_dcphr\\_covidtherapeutics@state.co.us](mailto:cdphe_dcphr_covidtherapeutics@state.co.us) to indicate interest in this program.

Thank you,

Department of Health Care Policy & Financing
