

Prescription Benefit Tool: Now available for Health First Colorado (Colorado's Medicaid program)

Prescription drugs are the leading contributor to rising health care costs

This affordability impact has a direct impact on patients. In fact, **1 in 3** Coloradans either cannot fill a prescription, cut pills in half, or skip doses because of the cost.

Rx Benefit Tool

Prescribers are empowered with rapid information, saves time, still decide which Rx

Patients experience more convenience and less confusion in getting needed medications

When patients can afford medications, they take them and stay healthy

Saving Coloradans money on health care by improving access to affordable prescriptions

One and done - providers empowered to get today's work done, today

Real-Time E-Prescribing

- Prescribers can now send the prescription electronically to pharmacies for Medicaid patients, just like for other patients
- Quick and easier to provide care to Medicaid patients

Real-Time Benefits Inquiry

- Receive preferred medication options
- Point-of-care insights incorporate preferred drug list
- Prescriber makes clinical decision

Real-Time Prior Authorization

- Real-time prior authorization requests (PARs); submitted via Cover My Meds connection
- Reduced workload (no manual entry or forms! no looking up lists!)
- Check eligibility and submit PARs electronically

How it works

1

Select medication & pharmacy

2

Patient-specific benefit info

3

Preferred alternatives returned

4

Discuss with patient and decide

- ❑ During the office visit, Prescriber queues up medications for prescribing.
- ❑ Click to see alternatives in order of lowest cost.
- ❑ The Prescriber decides.

Prescription Alternatives

for Patient seen on Date

Medication	Co-Pay
