HOSPITAL TRANSFORMATION PROGRAM: COMMUNITY AND HEALTH NEIGHBORHOOD ENGAGEMENT

MIDPOINT REPORTS

June 2019

Background

Hospitals participating in the Hospital Transformation Program (HTP) are required to engage organizations that serve and represent the broad interests of the community, including clinical providers, to identify community needs and resources to inform their applications to the HTP. The Community and Health Neighborhood Engagement (CHNE) process is intended to build on the strong spirit of collaboration within Colorado's health system and efforts and partnerships already underway. HTP participants are expected to engage, consult, and be informed by health neighborhoods and community organizations to identify community needs and inform the selection of transformation initiatives that address those needs during the planning process. Leveraging existing forums and collaborations will help to maximize community participation. Hospitals should align their engagement activities with advisory groups, existing programs and alliances, and statewide initiatives designed to strengthen the health care system.

Midpoint Reports

As the CHNE process continues, hospitals are required to document how they are engaging community partners, the feedback they receive, and how they will continue to engage community partners throughout the duration of the HTP. On April 19, 2019, hospitals submitted a Midpoint Report to update the Colorado Department of Health Care Policy & Financing on their work over the first half of the process to engage community partners and to complete an evidence-based environmental scan, as well as their plan for completing the pre-program CHNE process.

Hospitals will submit a final report at the end of the pre-program CHNE process, which will focus on their efforts to prioritize community needs, select target populations, identify possible initiatives and any partnerships, and outline future CHNE activities over the duration of the HTP. Additional information about requirements for the CHNE process can be found on [Colorado Hospital Transformation Program website](#).

Obtaining CHNE Midpoint Reports

Those interested in learning more about the CHNE Midpoint Reports for particular hospitals can request a copy by contacting the hospital directly (information provided in the table below) or Courtney Ronner, Hospital Relations & Communication Manager, at 303-866-2699 or Courtney.Ronner@state.co.us.

The Colorado Healthcare Affordability and Sustainability Enterprise (CHASE) is a government-owned business within the Department of Health Care Policy and Financing.
