

PCMP Quality Performance Report

What is the purpose of this report?

This informational report provides Calendar Year 2026 (CY26) quality performance data to guide performance monitoring and quality improvement efforts.

How can you use this report?

Aggregate Performance:
Shows your performance rate on each measure.

Track your aggregate performance over time and evaluate your performance relative to statewide thresholds.

Member Level Drill Down:
Includes detailed lists of members, demographics and measure criteria status.

Pinpoint individuals for follow-up and understand priority populations with unmet health needs.

Gaps in Care:
Identifies members nearing the need for services that meet measure criteria.

Identify care gaps and prioritize follow-ups with a holistic view of performance by member.

Acronyms

HCPF - Department of Health Care Policy and Financing

RAE - Regional Accountable Entity

PCMP - Primary Care Medical Provider

How will you get the report?

HCPF

RAE

PCMP

The first report will be sent to you in January 2026 from your RAE. Then reports will be provided quarterly during CY26.

What data is in the report?

Data will include claims and supplemental data on a rolling 12-month performance period.

The initial report will incorporate a 90-day runout period, reflecting historical data from June 1, 2024, to July 30, 2025. To ensure timely performance data, there will be quarterly reports provided in CY26 that will not include a 90-day runout period.
