

Network Report

UPDATED: 4/24/18

RAE Name: Rocky Mountain Health Plans Region # 1

Period Covered July – September 2018 SFY 2019

Please indicate below any areas within the region where the network does not meet the choice of 2 providers within contracted time and distance standards. Please describe:

- What actions have been taken to address network deficiencies,
- Whether any deficiencies were resolved during the past quarter and how, and
- What ongoing actions the RAE is implementing to address unresolved network deficiencies while supporting client access and mitigating problems.

1. Physical Health:

Physical Health Partner is someone who can bill for services or prescribe medications.

N/A – the network meets the choice of 2 providers within contracted time and distance standards.

2. Behavioral Health

Licensed Behavioral Clinician means a provider who is clinical social worker licensed pursuant to CRS 12-43-404, marriage and family therapist licensed pursuant to CRS 12-43-504, professional counselor licensed pursuant to CRS 12-43-603, addiction counselor licensed pursuant to CRS 12-43-804, or psychologist (Psy.D/Ph.D) licensed pursuant to CRS 12-43-304.

Licensed Behavioral Health Practitioner means a provider who is advanced practice nurse licensed pursuant to CRS 12-38-111.5, physician/psychiatrist licensed pursuant to CRS 12-36-101, or physician assistant license pursuant to CRS 12-36-106.

N/A – the network meets the choice of 2 providers within contracted time and distance standards.

RMHP is initiating a project to greatly enhance the provider data we capture and utilize for our new contracted RAE network along with additional information from our physical health network. We are beginning outreach to capture data elements that have not historically been available to us and expanding our database infrastructure to make this new data available to all that need access to it. In addition to data that is required to be captured that is not currently available to us, we are using this opportunity to capture information that will bring additional value to our practice transformation and value based contracting endeavors. Some examples of the information that we will be capturing are more detailed information on office hours and after hours capabilities, better indications of whether a provider serves both adult and pediatric populations, areas of focus and/or special training for behavioral health providers, and a means for providers to keep us more up to date on their panel size and ability to accept new clients into their practice. Outreach to our network regarding this information is beginning now. Over the course of the next few months we will be incorporating this information into our data systems and developing new systems and views into this information.

2. Please indicate the practitioner to client ratios in each county of your region
