UPDATED: 4/24/18

RAE Name: Colorado Access Region # 3
Period Covered Q2 SFY 18-19

Please indicate below any areas within the region where the network does not meet the choice of 2 providers within contracted time and distance standards. Please describe:

- What actions have been taken to address network deficiencies,
- Whether any deficiencies were resolved during the past quarter and how, and
- What ongoing actions the RAE is implementing to address unresolved network deficiencies while supporting client access and mitigating problems.

1. Physical Health:

Physical Health Partner is someone who can bill for services or prescribe medications.

COA Response: Colorado Access continues to assess its network and the provider community to determine if there are additional providers in Elbert County (Region 3) with whom we may contract and add to our network. In this effort, we have updates on our Q2FY18-19 regarding the following PCMPs and Behavioral Health providers who are not contracted with us in Elbert County. At this point in time, we do not find any additional providers for whom we could try to recruit into our network in Elbert County due to the sparsity of providers.

The following PCMPs do not participate in Medicaid. We have contacted them to see if they would be interested in participating in the Medicaid program and contracting with COA. Through our follow up with them, we learned that they are not interested in becoming Medicaid providers or contracting with COA. No further recruitment efforts regarding this group at this time.

1. Elizabeth Family Health
Marisa Moritz, MD
Karen Davis, DO
Richard Leahy, DO
Amilda Hickman, DO

During our follow-up, we learned that this provider does not practice in Elbert County, so they have been removed from our recruitment efforts.

2. Shannon McGinity, NP
