UPDATED: 04/30/19

RAE Name: Colorado Access Region #3

Period Covered Q3 SFY 18-19

Please indicate below any areas within the region where the network does not meet the choice of 2 providers within contracted time and distance standards. Please describe:

- What actions have been taken to address network deficiencies,
- Whether any deficiencies were resolved during the past quarter and how, and
- What ongoing actions the RAE is implementing to address unresolved network deficiencies while supporting client access and mitigating problems.

1. Physical Health:

Physical Health Partner is someone who can bill for services or prescribe medications.

COA Response: Colorado Access (COA) continues to assess its network and the provider community to determine if there are additional providers in Elbert County (Region 3) with whom COA may contract and add to the network. At this point in time, Colorado Access does not find any additional providers whom we could try to recruit into our network in Elbert County, due to the sparsity of providers.

The following Primary Care Providers do not participate in Medicaid. COA has contacted them to see if they would be interested in participating in the Medicaid program and contracting with COA. The providers have been clear in their desire to not participate in Medicaid, or in the Accountable Care Collaborative. COA has engaged in no further recruitment efforts regarding this group, at this time, but will reevaluate at a future date.

1. Elizabeth Family Health
Marisa Moritz, MD
Karen Davis, DO
Richard Leahy, DO
Amilda Hickman, DO

During our follow-up, COA learned that the provider, below, does not practice in Elbert County, so they have been removed from further recruitment efforts.

2. Shannon McGinity, NP

Colorado Access recognizes the lack of available services in Elbert County due to the scarcity of providers, and is committed to working through other means to ensure access to care and navigation services for COA members, there, while continuing to consider means to grow the provider network. COA, for example, is working through the Elbert County Interagency Oversight Group (IOG) to bring certain services and connections to the county that might not otherwise be readily available.

- Working with Elbert County IOG to collaborate with Colorado Access as their RAE through performance measure alignment. Elbert County IOG requested a performance measure alignment proposal for the 2020/2021 fiscal year in August 2019.
- Ongoing Health First Colorado member work with youth and families in Elbert County lead by the IOG Coordinator, including facilitated connection to care management and help with locating and accessing behavioral health providers
- Minimum bimonthly meetings with Elbert County service organizations including local human/social services, local judicial districts, local health departments, school districts, community mental health centers, and community based organizations who offer critical services to youth and families involved in the child welfare system.
- Quarterly meetings with Colorado Department of Human Services, the lead administration agency for IOG regarding collaboration efforts and best practices for effective IOG/RAE partnership for Elbert County.
- Provided vision and hearing screening equipment for early childhood school readiness for Elbert County School District.

2. Please indicate the practitioner to client ratios in each county of your region

PHYSICAL HEALTH					
County	Number of Practitioners	Number of Enrolled Members	Ratio for Adult Practitioner	Ratio for Pediatric Practitioner	Ratio for-Mid Level Adult Practitioner
Adams	493	128,707	1:527	1:513	1:719
Arapahoe	732	117,713	1:425	1:307	1:399
Douglas	408	25,868	1:175	1:114	1:162
Elbert	3	3,834	1:3,834	1:3,834	1:1917
Sub-Total	1,636	276,122	1:412	1:320	1:434

Note: The number of practitioners is a unique count of practitioners by county. Many of our specialty types can be both adult and pediatric. However, there are a total of 330 providers who only see pediatric members. There were 3,413 members who were excluded from the overall membership total due to residing outside of Region 3 Counties. Though these members were assigned to Region 3 during the reporting period, their PCMP was located in Region 5; therefore, they have been excluded from the provider ratios for Region 3.
