

Below is a table that outlines performance definitions, baselines, targets, and outcomes for the Accountable Care Collaborative's Behavioral Health Incentive Program (BHIP). FY2018-2019 goals were determined by a 10% increase of the difference between the ACC and RAE goals (10% gap closure). Data listed in the fourth section of the table is preliminary and is currently being validated by the Department's external quality review organization (EQRO).
