Discussion

All

30 minutes

Begin enrollment conversation by discussing coverage trends for pregnant women

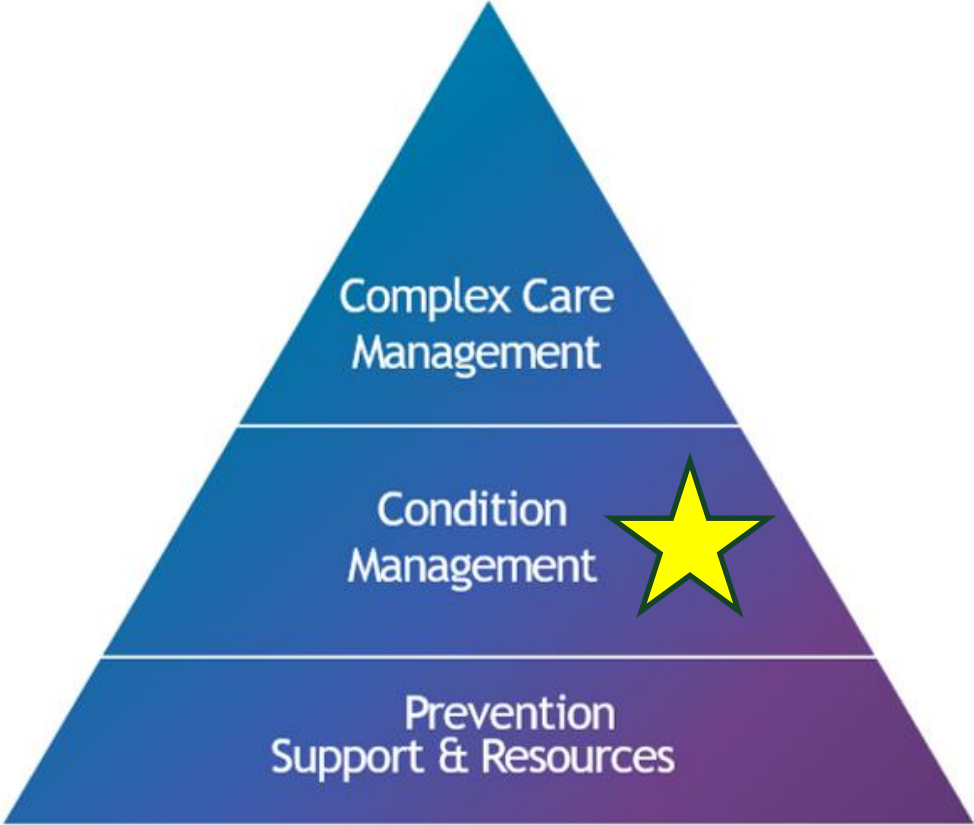

Present an overview of forthcoming adjustments regarding Accountable Care Collaborative performance metric portfolio

Policy and Delivery System Context

- Working to understand how members move on and off – “churn” – Health First Colorado coverage
- Conducted initial analysis of churn in Winter 2020
 - COVID-19 and public health emergency heightened importance of understanding churn trends in broader conversation regarding enrollment
- SB21-194 precipitated a closer look at pregnant women
 - Proposes that HCPF cover the 12-month post partum period

Policy and Delivery System Context

ACC Population Management Framework

Analysis

- Cohort includes MAGI Pregnant & Legal Immigrant Prenatal during SFY1819
- Analyzed coverage 12 months after the pregnancy eligibility span ended
- Analyzed by federal poverty level (FPL) and race/ethnicity
- Excluded following members:
 - Emergency-only coverage
 - Members eligible under pregnancy-related codes during SFY1920

Coverage by FPL

Covered: Eligible for Medicaid and/or, for a very small number of members, CHP+ all 12 months

Partial Coverage: Eligible for Medicaid or CHP+ for some months, not eligible other months

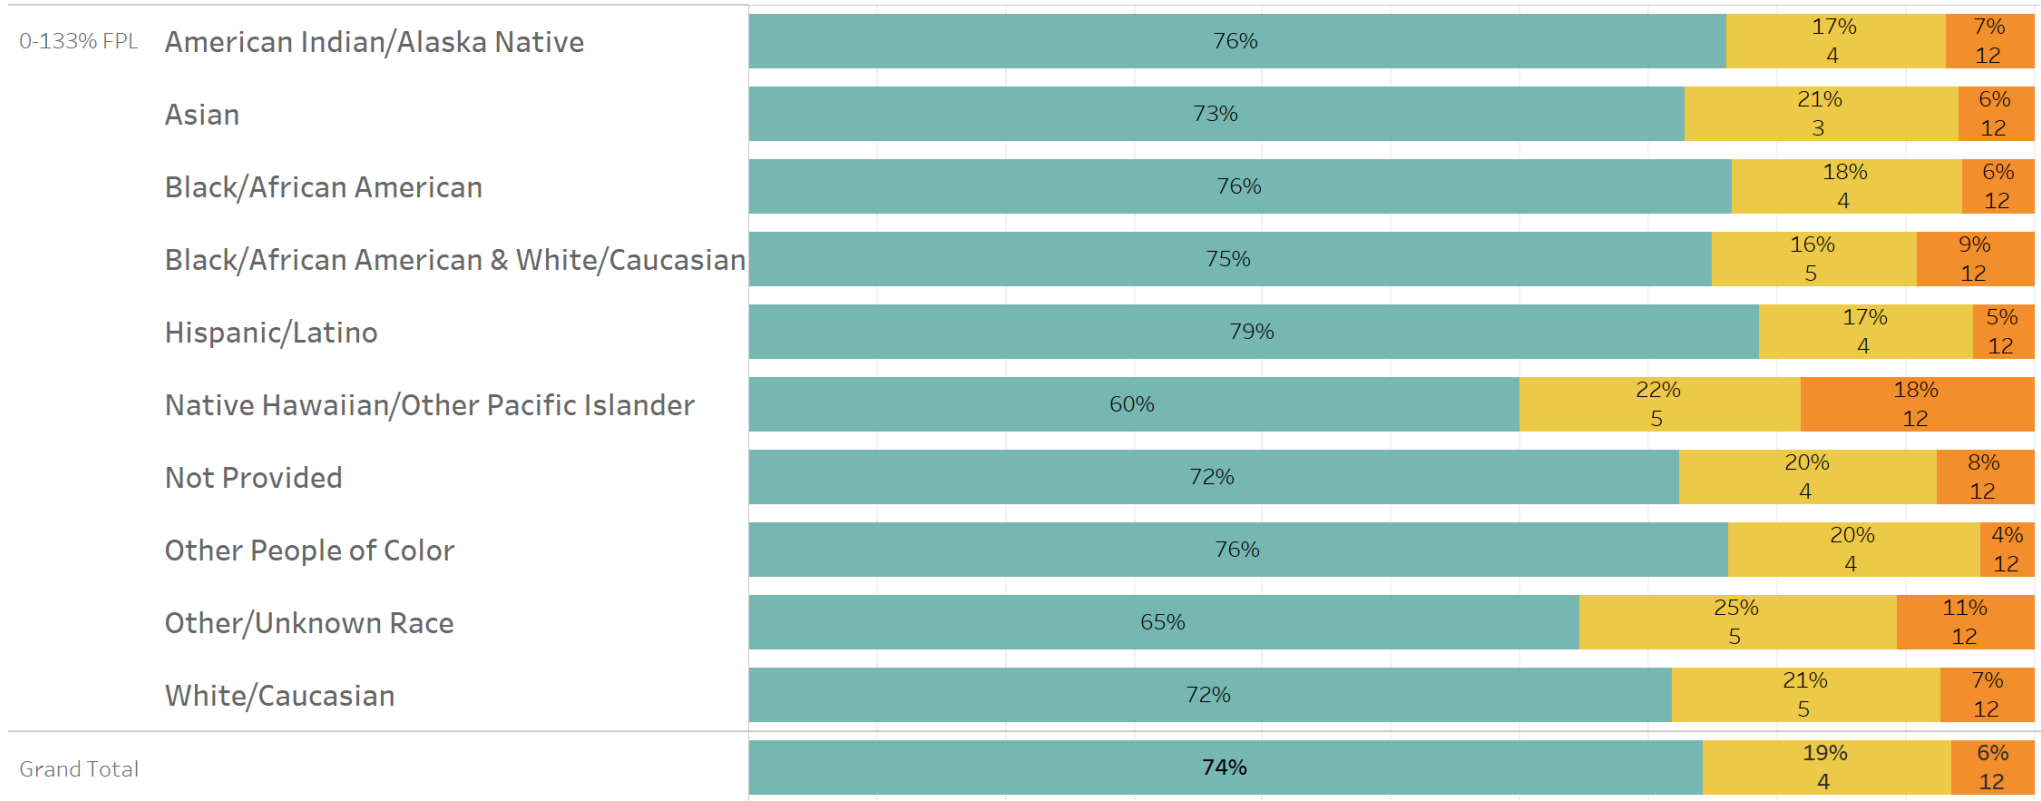

Not Covered: Not eligible for Medicaid or CHP+ during the 12 months

Percent of Members and the Median Number of Months without Eligibility

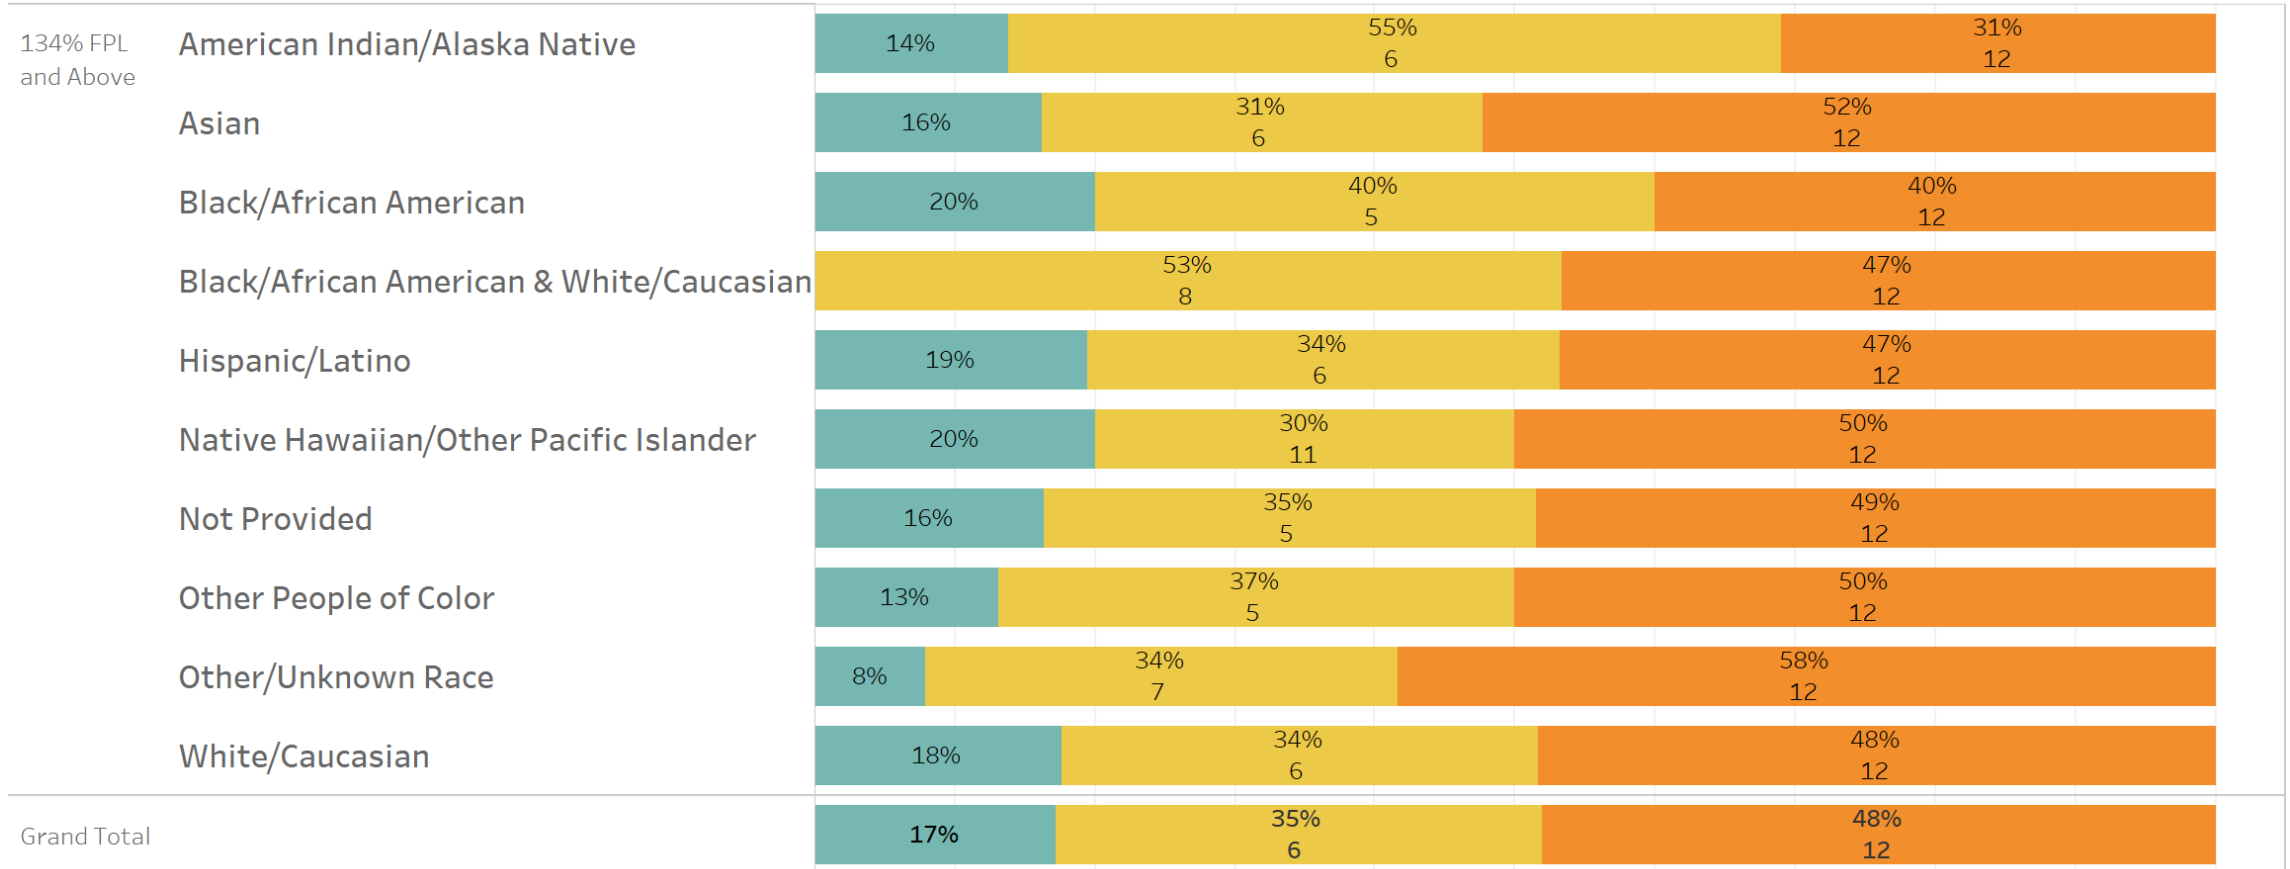

% of Total Distinct Members for each Fpl 133 Recode. Colour shows details about Cvrgr Sts Recode. The marks are labelled by % of Total Distinct Members and MEDIAN_GAP_MONTHS. The data is filtered on Aid Cd, Ems Only Ind and Excl 4 Fy20 Prg Spn. The Aid Cd filter keeps HB and HP. The Ems Only Ind filter keeps N. The Excl 4 Fy20 Prg Spn filter keeps N.

MAGI Pregnant, 0-133% FPL Coverage by Race/Ethnicity

MAGI Pregnant, 134% + FPL Coverage by Race/Ethnicity

Legal Immigrant Prenatal, 0-133% FPL Coverage by Race/Ethnicity

Legal Immigrant Prenatal, 134% + FPL Coverage by Race/Ethnicity

Discussion Questions

What are the implications, particularly from an EDI perspective, for these potential policy changes?

How would this impact the ACC and RAEs' ability to delivery maternity programming and to improve performance?

ACC Performance Metrics

- Begun to review and revise its performance strategy
- Developing forthcoming changes to performance metric portfolio:
 - Key Performance Indicators (KPIs),
 - Behavioral Health Incentive Program (BHIP), and
 - Performance Pool

ACC Performance Metrics

- Objectives of strategic review include:
 - replace homegrown measures with standard measures with a greater focus on outcomes;
 - reduce the total number of measures;
 - ensure our measures reflect our Medicaid populations and key program areas and goals, including areas with the greatest opportunity for improvement;
 - highlight areas for equity opportunity;
 - promote alignment and transparency; and
 - improve our capacity to understand what we're seeing in the data

ACC Performance Metrics

- Some changes take effect 7/1/2021
 - Majority take effect 7/1/2022
- Stakeholder feedback critical
 - Next PMME Meeting: May 27th from 3:00-4:30PM
 - Contact Liana Major liana.major@state.co.us

Measure Changes for July 1

Existing Measure	Program (s)	Add/Replace/ Remove/Update	Proposed Change	Proposed Effective Date
Well Visits	KPI	Replace	Well-Child Visits in the first 30 Months of Life (NQF1392) Child and Adolescent Well-Care Visits (NQF1516)	7/1/2021
