

# Provider and Community Experience Subcommittee

Program Improvement Advisory Committee

Presented by: Anita Rich

June 2020

# Purpose/Charter

To assess the experience of providers and community-based organizations (CBOs) within the ACC by identifying, prioritizing, and investigating key challenges and solutions to best support and build capacity within providers and CBOs, to foster collaboration and development of a health neighborhood between providers, CBOs, and RAEs, and to leverage their collective strengths in broader regional and state improvement work.

# Membership

PIAC Provider and Community Experience Subcommittee Voting Membership		
<u>Name</u>	<u>Organization</u>	<u>Representing</u>
Anita Rich		Co-chair (PIAC member)

		At-large
		At-large
		At-large

# Objectives

- 1) Strengthen the Health Neighborhood through exploring access to specialty care, Non-emergent Medical Transportation (NEMT), Hospital Transformation Program, and other relevant efforts/programs.
- 2) Understand the best practices and outstanding challenges to supporting and transforming practices and their relationships with CBOs in the provision of care to Health First Colorado members and their families.
- 3) Explore the current models and programming for care coordination and chronic disease management within Colorado in the context of both clinical care linkages and the social determinants of health.

# Current Objective Work

- 1) Strengthen the Health Neighborhood through exploring access to specialty care, Non-emergent Medical Transportation (NEMT), Hospital Transformation Program, and other relevant efforts/programs.
  - Access to Specialty Care Workgroup
- 2) Understand the best practices and outstanding challenges to supporting and transforming practices and their relationships with CBOs in the provision of care to Health First Colorado members and their families.
- 3) Explore the current models and programming for care coordination and chronic disease management within Colorado in the context of both clinical care linkages and the social determinants of health.
  - Care Coordination Workgroup
