

**7/1/2020:** The Department separated Baby from Mom's claim on 7/1/2020 after three years of stakeholder discussion and involvement. The resulting change in Weights, Average Length of Stay (ALOS) and TrimPoint to Delivery and Neonate DRGs using the National HSRV file Ver 33 from 3M and multiplied by a factor of 1.2699 to achieve a budget neutral change in payment for hospitals. Reductions for IPP-LARCs devices were instituted after the budget neutral changes. DRG's 540, 542 & 560 weights were reduced by .004 to allow for a separate payment for IPP-LARCs devices. Please see IP/OP Billing Manual for billing instructions.

**2.17.2021:** DRG 541 Weights, ALOS and Trimponts updated to reflect desired changes instituted on 7.1.2020.

**7/1/2020:** The Department separated Baby from Mom's claim on 7/1/2020 after three years of stakeholder discussion and involvement. The resulting change in Weights, Average Length of Stay (ALOS) and TrimPoint to Delivery and Neonate DRGs using the National HSRV file Ver 33 from 3M and multiplied by a factor of 1.2699 to achieve a budget neutral change in payment for hospitals. Reductions for IPP-LARCs devices were instituted after the budget neutral changes. DRG's 540, 542 & 560 weights were reduced by .004 to allow for a separate payment for IPP-LARCs devices. Please see IP/OP Billing Manual for billing instructions.

**2.17.2021:** DRG 541 Weights, ALOS and Trimpoints updated to reflect desired changes instituted on 7.1.2020.

The resulting change in Weights, Average Length of Stay (ALOS) and TrimPoint to Delivery and Neonate DRGs using the National HSRV file Ver 33 from 3M and multiplied by a factor of 1.2699 to achieve a budget neutral change in payment for hospitals. Reductions for IPP-LARCs devices were instituted after the budget neutral changes. DRG's 540, 542 & 560 weights were reduced by .004 to allow for a separate payment for IPP-LARCs devices. Please see IP/OP Billing Manual for billing instructions.

**7/1/2020:** The Department separated Baby from Mom's claim on 7/1/2020 after three years of stakeholder discussion and involvement. The resulting change in Weights, Average Length of Stay (ALOS) and TrimPoint to Delivery and Neonate DRGs using the National HSRV file Ver 33 from 3M and multiplied by a factor of 1.2699 to achieve a budget neutral change in payment for hospitals. Reductions for IPP-LARCs devices were instituted after the budget neutral changes. DRG's 540, 542 & 560 weights were reduced by .004 to allow for a separate payment for IPP-LARCs devices. Please see IP/OP Billing Manual for billing instructions.

**2.17.2021: DRG 541 Weights, ALOS and Trimpoints updated to reflect desired changes instituted on 7.1.2020.**

**7/1/2020:** The Department separated Baby from Mom's claim on 7/1/2020 after three years of stakeholder discussion and involvement. The resulting change in Weights, Average Length of Stay (ALOS) and TrimPoint to Delivery and Neonate DRGs using the National HSRV file Ver 33 from 3M and multiplied by a factor of 1.2699 to achieve a budget neutral change in payment for hospitals. Reductions for IPP-LARCs devices were instituted after the budget neutral changes. DRG's 540, 542 & 560 weights were reduced by .004 to allow for a separate payment for IPP-LARCs devices. Please see IP/OP Billing Manual for billing instructions.

**2.17.2021:** DRG 541 Weights, ALOS and Trimponts updated to reflect desired changes instituted on 7.1.2020.

**7/1/2020:** The Department separated Baby from Mom's claim on 7/1/2020 after three years of stakeholder discussion and involvement. The resulting change in Weights, Average Length of Stay (ALOS) and TrimPoint to Delivery and Neonate DRGs using the National HSRV file Ver 33 from 3M and multiplied by a factor of 1.2699 to achieve a budget neutral change in payment for hospitals. Reductions for IPP-LARCs devices were instituted after the budget neutral changes. DRG's 540, 542 & 560 weights were reduced by .004 to allow for a separate payment for IPP-LARCs devices. Please see IP/OP Billing Manual for billing instructions.

**2.17.2021:** DRG 541 Weights, ALOS and Trimpoints updated to reflect desired changes instituted on 7.1.2020.

**7/1/2020:** The Department separated Baby from Mom's claim on 7/1/2020 after three years of stakeholder discussion and involvement. The resulting change in Weights, Average Length of Stay (ALOS) and TrimPoint to Delivery and Neonate DRGs using the National HSRV file Ver 33 from 3M and multiplied by a factor of 1.2699 to achieve a budget neutral change in payment for hospitals. Reductions for IPP-LARCs devices were instituted after the budget neutral changes. DRG's 540, 542 & 560 weights were reduced by .004 to allow for a separate payment for IPP-LARCs devices. Please see IP/OP Billing Manual for billing instructions.

**2.17.2021:** DRG 541 Weights, ALOS and Trimponts updated to reflect desired changes instituted on 7.1.2020.

**7/1/2020:** The Department separated Baby from Mom's claim on 7/1/2020 after three years of stakeholder discussion and involvement. The resulting change in Weights, Average Length of Stay (ALOS) and TrimPoint to Delivery and Neonate DRGs using the National HSRV file Ver 33 from 3M and multiplied by a factor of 1.2699 to achieve a budget neutral change in payment for hospitals. Reductions for IPP-LARCs devices were instituted after the budget neutral changes. DRG's 540, 542 & 560 weights were reduced by .004 to allow for a separate payment for IPP-LARCs devices. Please see IP/OP Billing Manual for billing instructions.

**2.17.2021:** DRG 541 Weights, ALOS and Trimponts updated to reflect desired changes instituted on 7.1.2020.

**7/1/2020:** The Department separated Baby from Mom's claim on 7/1/2020 after three years of stakeholder discussion and involvement. The resulting change in Weights, Average Length of Stay (ALOS) and TrimPoint to Delivery and Neonate DRGs using the National HSRV file Ver 33 from 3M and multiplied by a factor of 1.2699 to achieve a budget neutral change in payment for hospitals. Reductions for IPP-LARCs devices were instituted after the budget neutral changes. DRG's 540, 542 & 560 weights were reduced by .004 to allow for a separate payment for IPP-LARCs devices. Please see IP/OP Billing Manual for billing instructions.

**2.17.2021:** DRG 541 Weights, ALOS and Trimponts updated to reflect desired changes instituted on 7.1.2020.
