INTRODUCTION

The first edition of this billing manual was published in 2009 to establish statewide coding standards for Behavioral Health (BH) services covered by various state funding sources. This was created in response to the Health Insurance Portability and Accountability Act of 1996 (HIPAA) that initiated a national coding system for medical, mental health, and substance use disorder services. The original title of this manual was the Uniform Service Coding Standards (USCS) Manual. The title was changed in July 2023 to identify the scope of the manual more easily as more providers from various sectors of Colorado's BH system were providing services covered by State funding.

Colorado's BH system has experienced significant transformation over the years this manual has been in use. Most importantly was the creation of the Behavioral Health Administration (BHA) in July 2022. BHA became the single entity responsible for driving coordination and collaboration across State agencies to address behavioral health needs. BHA's mission is to co-create a people-first behavioral health system that meets the needs of all people in Colorado. BHA oversees and regulates Colorado's comprehensive public behavioral health care system for mental health (MH) and substance use disorder (SUD) services [together referred to as Behavioral Health (BH) services]. BHA is responsible for the administration of service contracts that provide BH services provided to the non-Medicaid population, or for services not covered by Medicaid. Specifically, the Community Behavioral Health (CBH) Division of BHA oversees, and purchases substance use and mental health prevention, treatment, and recovery services across Colorado. CBH works to ensure quality and effective behavioral health programming in community settings and in partnership with consumers, families, and communities. Recipients of BH services will be referred to as 'members' throughout this manual even though BHA services do not require enrollment to be eligible for services.

The Colorado Department of Health Care Policy & Financing (HCPF) is the single state agency (SSA) responsible for the administration of the Colorado Medical Assistance Program (MAP). HCPF has developed a comprehensive array of covered BH treatment services to assure that medically necessary, appropriate, and cost-effective care is provided to eligible Medicaid members through the Statewide System of Community Behavioral Health Care, referred to hereafter as the Medicaid Capitated Behavioral Health Benefit.

This billing manual is published to detail services covered under the Medicaid Capitated Behavioral Health Benefit, provide common service definitions for service codes that are used

by both BHA and HCPF, and outline guidance in coding formats that follow national standards. The clinical coding systems currently used in the United States, and which are used in The Billing Manual, are:

- *International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM)*
- *Current Procedural Terminology (CPT®), Professional Edition*. CPT codes, descriptions and other data only are copyright 1995 - 2023 American Medical Association. All rights reserved. CPT is a registered trademark of the American Medical Association (AMA).
- *Healthcare Common Procedure Coding System (HCPCS)*

This billing manual is a living document that is updated as needed to maintain consistency between BHA contracts, Medicaid State Plan Amendments, the 1915 (b)(3) waiver, Managed Care Entity (MCE) contract, and coding guidelines. For questions seeking clarification or additional guidance related to Medicaid covered services detailed in this manual please email hcpf_bhcoding@state.co.us, or for BHA covered services and contracts, please email cdhs_bha_provider_support@state.co.us. Please submit any suggestions to add, delete or change coding guidance in this manual to your MCE(s) or BHA program staff. Unless otherwise noted providers must implement coding standards reflected in this edition for dates of service on the effective date of this manual and thereafter regardless of submission date.

PROCEDURE CODE PAGE OUTLINE

Individual procedure code pages are listed in numerical and alphanumerical order. Each CPT code falls into one of ten primary categories of service, or “Service categories”. These categories are not listed on the individual pages but can be found in Appendix I.

Each procedure code page uses the following outline structure:

- **CPT®/HCPCS Procedure Code** - The 5-digit numeric CPT® or alphanumeric HCPCS code used to identify, report and/or bill the specific service or procedure rendered.
- **Procedure Code Short Description** - A brief narrative description of the procedure code based on the definitions from the *2022 Coders' Desk Reference for Procedures*¹⁴ and/or the CMS.¹⁵
- **Applicable Population(s)** - Any limitations on the use of the procedure code or service based on age.¹⁶
- **Unit** - The amount of time for a time-based procedure code (i.e., per 15 minutes [MIN], per hour [HOUR], per diem [DAY], per month [MON]), or the number of occurrences (i.e., session, encounter [ENC]) for a non-time-based procedure code, which is spent with the member.
- **Duration** - The minimum and maximum time allowed for the service or procedure, as applicable.¹⁷ For encounter-based procedure codes, the minimum and maximum time allowed should be considered general guidance, unless otherwise specified in the procedure code description.
- **Service Description** - A brief narrative of the common or generally accepted method(s) of accomplishing the procedure or service indicated by the procedure code description.
 - **Example Activities** - As available, examples of activities that may be reported and/or billed utilizing the specific procedure code. (**Note:** Examples are not all-inclusive.)
 - **Notes** - Additional descriptive information regarding the procedure code or service. Specific documentation requirements that are unique to each code may be listed under this section.
 - **Minimum Documentation Requirements** - This section was deleted from each coding page on Jan 1, 2022. See general documentation guidelines in Section VIII. Service Documentation Standards. Any unique standards for a specific code will be detailed in this center section of the coding page
- **Modifiers/Program Service Category(ies)** - Procedure code modifiers, when used correctly, allow providers to more accurately document and report the services rendered. The two-digit modifiers are appended to CPT® or HCPCS procedure codes to indicate that a rendered service or procedure has been altered in its delivery by some specific circumstance but has not changed in its definition or procedure code.¹⁸
- **Place of Service (POS)** - CMS maintains a list of Place of Service (POS) codes that indicate the actual place(s) or location(s) where the procedure code or service may be provided. These two-digit codes are required on health care professional claims and are noted on each coding

page. For a complete list of POS codes see Appendix K.

- **Service Provider** - The staff credentials allowed to render the service or procedure, unless specifically restricted by the procedure code description.¹⁹ For a list of service providers with definitions/references to authority see Appendix J.
- **Provider Types That Can Bill** - The individual or organization that bills Medicaid for the ordered/referred service provided to the member. This can be the entity employing or supervising the practitioner who provided the service to the member. A list of Medicaid PTs can be found in Appendix L.

Below is a template of a coding page that shows the details/options of information that are shown in each box.

APPENDIX A: ABBREVIATIONS & ACRONYMS

This information can be found at <https://hcpf.colorado.gov/bh-policies#Abbreviation>

APPENDIX B: BHA-ONLY CODES

In addition to the codes covered by both Medicaid and BHA listed in the body of this billing manual, BHA has additional codes included within their programs. For entities and behavioral health providers that contract with BHA, the following codes apply to programs and initiatives requiring client level data submissions. Please contact cdhs_bha_provider_support@state.co.us or your BHA program manager with questions regarding data submissions or additional services being provided to clients.

Age categories referred to in the table below:

Child (0-11), Adolescent (12-17), Young Adult (18-20), Adult (21-64) Older Adult (65+)

T1013 15 MINS Min: 8 Max: n/a AGES: ALL	Sign language or oral interpreter for alcohol and/or substance use services Service Description: (Including example activities) An additional service to assure the treatment for Behavioral Health members is understood or received for members who require sign language or oral interpretation, including but limited to those services required by the Americans with Disabilities Act. Sign language or oral interpretation provided to a member to assure they understand the treatment, or services being provided to them in relation to alcohol and/or drug abuse services.	ALL	DHOH Interpreter
	Notes: (Including specific documentation and/or diagnosis requirements) DHOH Interpreter: Interpreters are part of a treatment team, and as with all other members of the treatment team, an organization should use interpreters who are competent, professional and will behave in an ethical manner. Certification by the Registry of Interpreters for the Deaf (RID) conveys that an interpreter has met a nationally recognized standard of competence and professionalism. Colorado law (Colorado Revised Statutes 6-1-707) requires that anyone using certain terms must be registered with the Registry of Interpreters for the Deaf (RID) or a successor organization. Such terms include: <ul style="list-style-type: none"> • Sign language interpreter • Interpreter for the deaf • ASL-English interpreter • American sign language (ASL) interpreter • Certified sign language interpreter • Certified interpreter for the deaf • Certified deaf interpreter • Certified ASL-English interpreter • Certified American sign language (ASL) interpreter <ol style="list-style-type: none"> 1. 2. Date of service 3. Start and stop time (duration) 4. Signed with 1st initial, last name & credentials

APPENDIX E: EVALUATION AND MANAGEMENT (E/M) CODES COVERED UNDER THE MEDICAID CAPITATED BEHAVIORAL HEALTH BENEFIT

The purpose of this appendix is to demonstrate when E/M services are covered under the Medicaid Capitated Behavioral Health Benefit. E/M codes that are not covered may be billed to a member's MCO, or to FFS if the member is not enrolled with an MCO.

For the purposes of this guidance, the following billing provider types (PT) are considered Behavioral Health Specialty Providers.

PT	Specialty Type	Type Description
64	All Specialty Types EXCEPT 213 and 214 (OTP providers still need to bill E/M services to FFS under PT 16)	Substance Use Continuum
78	877	Comprehensive

E/M codes are covered under the Capitated Behavioral Health Benefit when they are billed by a Behavioral Health Specialty Provider for a primary diagnosis of either a covered mental health or covered substance use disorder, with the following exceptions:

- **Consultation Codes** - E/M Codes 99242-99245, 99252-99255 are reimbursed when the service is provided for a covered BH diagnosis, regardless of the billing provider. Consultation Services are distinguished from other E/M services because a Physician or qualified Non-Physician Practitioner (NPP) is requested to advise or opine regarding E/M of a specific member by another Physician or other appropriate source. Only the provider being consulted can bill for this service.
- **Emergency Department Codes** - E/M Codes 99281-99285 are reimbursed when the service is provided for a covered BH diagnosis, regardless of the billing provider.

E/M Add-on Codes 90785, 90833, 90836, and 90838 are reimbursed under the Capitated Behavioral Health Benefit when they are billed with an E/M code covered under the Capitated Behavioral Health Benefit.

E/M codes are defined by level of Medical Decision Making (MDM), Level of Complexity, or Risk of Complication. You can see these criteria in many of the code descriptions. These codes are all billed as encounter units.

H2030	Mental health Clubhouse services, per 15 mins
H2031	Mental health Clubhouse services, per diem
H2032	Activity therapy, per 15 mins
H2033	Multi-systemic therapy (MST) for juveniles, per 15 mins
S5150	Unskilled respite care, not hospice, per 15 mins
S5151	Unskilled respite care, not hospice, per diem
S9445	Member education, not otherwise classified, non-physician provider
S9453	Smoking Cessation, not otherwise classified, non-physician provider
S9454	Stress management classes, non-physician provider, per session
S9480	Intensive outpatient psychiatric (IOP) services, per diem
S9485	Crisis intervention mental health services, per diem
T1005	Respite care services, per 15 mins
T1017	Targeted case management

APPENDIX I: PROCEDURE CODES COVERED UNDER THE MEDICAID CAPITATED BEHAVIORAL HEALTH BENEFIT

Codes highlighted in yellow indicate Assessment, Screening, Crisis, or Prevention/Intervention codes for which a covered diagnosis is not required.

Codes highlighted in blue indicate services provided to members under the age of 21 that can be billed with a SDOH diagnosis, per SB 23-174.

Units are defined by 15 Minutes (15 M), 1 Hour (1 H), Encounter (E), Day (D), or Month (M)

The right two columns of this appendix indicate when a code must be processed by commercial insurance or Medicare (and Medicare replacement) before billing Medicaid.

The last page of this appendix lists the revenue codes that are covered under the Capitated Behavioral Health Benefit.

Code	Description	Primary Category	Unit	Comm Insure First	Medicare First
