PAR Determination Process

After submission of a request, you will see one of the following actions occur:

- 1. Approval:** Met criteria/Code of Colorado Regulations applied for the service requested at first level review or was approved at physician level.
- 1. Request for additional information (PEND):** Information for determination is not included and vendor requests this to be submitted to complete the review.
- 2. Technical Denial:** Health First Colorado Policy is not met for reasons including, but not limited to, the following reasons:
 - Untimely Request
 - Requested information not received or Lack of Information (LOI)
 - Duplicate to another request approved for the same provider
 - Service is previously approved with another provider
- 3. Medical Necessity Denial:** Physician level reviewer determines that medical necessity has not been met and has been reviewed under appropriate guidelines. The Physician may fully or partially deny a request.

PAR Determination Process (con't)

Denials

- If a **technical denial** is determined, the provider can request a reconsideration.
- If a **medical necessity denial** was determined, it was determined by a Medical Director. The Medical Director may fully or partially deny a request. For a medical necessity denial, the provider may request a reconsideration and/or a Peer-to-Peer.

Steps to consider after a denial is determined:

- **Reconsideration Request:** the *servicing* provider may request a reconsideration to Acentra Health within *10 business days* of the initial denial. If the reconsideration is not overturned, the next option is a Peer-to-Peer (Physician to Physician).
- **Peer to Peer Request:** an *ordering* provider may request a Peer-to-Peer review within *10 business days* from the date of the medical necessity adverse determination.
 - Place the request in the case notes, providing the physician's full name, phone number, and three dates and times of availability.
 - The peer-to-peer will be arranged on one of the provided dates and times for the conversation to be conducted. You may also call Customer Service at 720-689-6340 to request the peer-to-peer.

Turnaround Times - Part 1

Turnaround Time: the turnaround time for completion of a PAR review ensures:

- A thorough and quality review of all PARs by reviewing all necessary & required documentation when it is received
- Decreases the number of unnecessary pends to request additional documentation or information
- Improves care coordination and data sharing between Acentra Health and the Department's partners (i.e., Regional Accountable Entities, Case Management Agencies, etc.)

For additional information pends: the provider will have 7 calendar days to respond. It is important to note due to Federal Interoperability requirements only one pend or request for additional information will be sent. If there is no response or insufficient response to the request, Acentra Health will complete the review and technically deny for Lack of Information (LOI) if appropriate. In addition, expedited requests will no longer receive any requests for additional information, the determination will be made based off the information submitted and technically denied if required documents are not submitted

Turnaround Times - Part 2

Expedited review : a PAR that is expedited is because a delay could:

- Jeopardize Life/Health of member,
- Jeopardize ability to regain maximum function
- and/or subject to severe pain.

These requests will be completed in no more than 72 hours. For expedited requests, no pends or requests for information will be allowed in order to comply with the interoperability rules requirement for 72 hours.

Rapid review: a PAR that is requested because a longer turnaround time could result in a delay in the Health First Colorado member receiving care or services that would be detrimental to their ongoing, long-term care.

A Rapid review may be requested by the Provider in very specific circumstances including:

- A service or benefit that requires a PAR and is needed prior to a HFC member's inpatient hospital discharge.

These requests will be completed in no more than 1 business day.

Standard review: the majority of cases would fall under this category as a Prior Authorization Request is needed. These requests will be completed in no more than 7 calendar days.

Early and Periodic Screening Diagnostic Treatment (EPSDT)

- Acentra Health follows the EPSDT requirements for all medical necessity reviews for Health First Colorado members.
- Medical necessity reviews on treatments, products or services requested or prescribed for all members ages 20 years of age and under are based on compliance with federal EPSDT criteria.
- Medical necessity is decided based on an individualized, child specific, clinical review of the requested treatment to ‘correct or ameliorate’ a diagnosed health condition in physical or mental illnesses and conditions.
- EPSDT includes both preventive and treatment components as well as those services which may not be covered for other members in the Colorado State Plan.
