PARTICIPATION MEASURES

To qualify for participation in the BHIP Program, RAEs must meet the following:

1) The Contractor must manage the program such that the weighted average per-member-per-month trend is 4% or less from FY 2019-20 to FY 2020-21. The Department may, at its discretion, and with contractor consent, modify the target trend to account for underlying changes in the program's risk structure or population.

To qualify for incentive payments, RAEs must meet the following minimum performance requirements during the contract year:

- 1) Timely submission and completion of a corrective action plan submissions and activities
- 2) Timely and accurate submission of monthly encounter data

Qualifier 1: Monthly Data Submission

Description: The number of successful months of monthly data submissions to the department.

Successful monthly data submission is defined as:

Submission of flat files that are submitted on time in accordance with the contract and meets the following flat file specifications:

- The flat file contains no lines that duplicate other lines within the submission, nor lines that duplicate lines from previous submissions
- The flat file has no missing key fields or incorrect formats.

Each monthly submission that contains only files meeting the above criteria will count towards this qualifying measure. Monthly submissions containing additional files to correct for the errors listed above, or containing additional supplemental files, will not count towards the qualifying measure.

Data Source: Encounter Submission through RAE flat files, using dates August 2019 through July 2020.

Benchmark: To receive 100% of the qualifying measure, the plan must have at least 10 months of successful monthly data submissions. For each month below the 10 months of successful submissions, the plan will lose a portion of the qualifying measure. For 8-9 months of successful submissions, the plan will lose 10% of the measure for each month below 10. For months below 8, the plan will lose the remainder of the qualifying measure. Thus, the schedule for this measure is as follows:

• 10-12 successful months of data submissions – 100%

Version 1: 10.12.2020 Page **4** of **32**

- 9 successful months of data submissions 90%
- 8 successful months of data submissions 80%
- 7 or less successful months of data submissions 0%

Qualifier 2: Corrective Action Plan Compliance

Description: All corrective action plan submissions and activities shall be in accordance with the provisions of the Contract, for the duration of the Contract term.

To qualify for the portion of the overall incentive funds allocated for this participation measure, the Contractor shall demonstrate 100% compliance.

According to the corrective action plan (CAP) process, there are specific steps to ensure plans are a 100% compliant that are coordinated by the Departments EQRO, they are:

- o The plan must submit the CAP within the timeframe given (30 days)
- o The CAP must be approved by the Department -
- o The CAP must be completed within the allowed timeframe outlined in the CAP

HCPF Goals were developed using the top performer (identified in green in the table above) using this equation:

$$(top performer) + (10\% of top performer) = HCPF Goal$$

Each RAE will be responsible for closing their performance gap (between SFY 18-19 performance and the identified HCPF Goal) by 10% during the performance year (SFY 19-20). Please see the example below.

Indicator 1: Engagement in Outpatient Substance Use Disorder (SUD) Treatment

Measure Description

The percentage of members who had two or more outpatient services for a primary diagnosis of SUD on or within 30 days of their first episode of substance use disorder treatment.

Measurement Period

Triggering event: July 1, 2020 to June 1, 2021

Full measurement period: July 1, 2020 to June 30, 2021

Denominator

Members will be included in the denominator if they are enrolled in the ACC and received an intake service for a primary covered SUD diagnosis (see Appendix A). For an outpatient visit, or intensive outpatient visit use the first date of service to determine the intake date. For an episode of detoxification use the last date of the first detox episode to determine the intake date.

Notes:

- 1. Do not count events that include inpatient detoxification or detoxification codes (see table below) when identifying engagement of SUD treatment.
- 2. Billing provider type is only used on FFS data for the calculation of this metric.

Indicator 2: Follow-up appointment within 7 days of an Inpatient Hospital discharge for a mental health condition

Measure Description

The percentage of member discharges from an inpatient hospital episode for treatment of a primary covered mental health diagnosis to the community or a non-24-hour treatment facility who were seen on an outpatient basis by a mental health provider on or within 7 days of discharge.

Measurement Period

Triggering event: July 1, 2020 to June 24, 2021

Full measurement period: July 1, 2020 to June 30, 2021

Denominator

Members will be included in the denominator if they are enrolled in the ACC and received a discharge from an inpatient hospital episode for treatment of a primary covered mental health diagnosis (See Appendix A) to the community or a non-24-hour treatment facility.

Notes:

1. The Department will not exclude state hospital stays not paid under Medicaid due to lack of data.

2. Billing provider type is only used on FFS data for the calculation of this metric.

The following are exclusions from the denominator:

Version 1: 10.12.2020 Page **13** of **32**

- If the discharge is followed by readmission or direct transfer to an emergency department for a primary diagnosis of mental health- within the 7-day follow-up period, count only the readmission discharge or the discharge from the emergency department to which the patient was transferred.
- Exclude discharges followed by admission or direct transfer to an acute or nonacute facility within the 7-day follow-up period, regardless of primary diagnosis for the admission.

These discharges are excluded from the measure because hospitalization or transfer may prevent an outpatient follow-up visit from taking place.

Numerator

Members in the denominator who were seen on an outpatient basis (this excludes case management) with a mental health provider on or within 7 days of discharge.

Notes:

1. Billing provider type is only used on FFS data for the calculation of this metric.

Indicator 3: Follow-up Appointment within 7 days of an Emergency Department (ED) visit for a Substance Use Disorder

Measure Description

The percentage of member discharges from an emergency department episode for treatment of a covered substance use disorder (SUD) to the community or a non-24-hour treatment facility who were seen on an outpatient basis by a behavioral health provider on or within 7 days of discharge.

Measurement Period

Triggering event: July 1, 2020 to June 24, 2021

Full measurement period: July 1, 2020 to June 30, 2021

Denominator

Members will be included in the denominator if they are enrolled in the ACC and received a discharge from an emergency department episode for treatment of a primary covered substance use disorder diagnosis (see Appendix A) to the community or a non-24-hour treatment facility.

Notes:

1. The Department will not exclude state hospital stays not paid under Medicaid due to lack of data.

2. Billing provider type is only used on FFS data for the calculation of this metric.

period, count only the readmission discharge or the discharge from the emergency department to which the patient was transferred.

• Exclude discharges followed by admission or direct transfer to an acute or nonacute facility within the 7-day follow-up period, regardless of primary diagnosis for the admission.

These discharges are excluded from the measure because hospitalization or transfer may prevent an outpatient follow-up visit from taking place.
