Section 1: Introduction

Overview

The Behavioral Health Incentive Program is comprised of set aside funding. These measures are intended to place greater emphasis on health outcomes and cost containment.

Purpose

The purpose of this document is to describe the methodologies used to calculate Behavioral Health Incentive Program payments for Regional Accountable Entities (RAEs) participating in the Accountable Care Collaborative (ACC) in State Fiscal Year (SFY) 23-24.

Scope

This document addresses only the methodology utilized to calculate the ACC Behavioral Health Incentive Program Metrics.

The Department understands that Well Visit, Oral Evaluation, and Lead Screening metrics do not align perfectly with EPSDT Requirements that State Medicaid Agencies are held accountable to. However, Health First Colorado acknowledges that we are expected and required to meet the goals and objectives in EPSDT in addition to CMS Core Metrics and commit to working on both program expectations simultaneously.

Document Maintenance

This document will be reviewed annually at the start of the new State Fiscal Year and updated as necessary. This document contains a Revision History log on the Document Information page. When changes occur, the version number will be updated to the next increment as well as the revision date and change description. Unless otherwise noted, the author of the revision will be the document's author, as identified in the Document Identification table, which is also on the Document Information page.

Section 2: Data Requirements

Data Requirements

The Behavioral Health Incentive Program metrics (BHIP) are calculated for Regional Accountable Entities (RAEs) and Primary Care Medical Providers (PCMPs) participating in the Accountable Care Collaborative (ACC) program based on the members' utilization of services.

Background

Each Behavioral Health Incentive Program metrics calculation is based on the utilization of services by the population enrolled in the ACC. The following sections describe the differences in the methodologies used to calculate and evaluate these measures.

Note: Some Metrics will be based on CMS Core Measure Technical Specifications. Telemedicine visits and services are included in calculations if specifications allow. See the CMS Core Measure Reporting Resources for more details.

Evaluation and Baseline Period

Each evaluation period is twelve rolling months of data based on service/eligibility dates allowing for three months of claims runout.

Evaluation Population

All members with full Medicaid are mandatorily enrolled into the ACC program. All baseline and evaluation period populations are specified under each measure specification.

Claims Selection Criteria

The following criteria are used to select the claims to calculate the measures:

- Both facility and professional claims
- Paid claims and Encounters (with three months runout)
- Only current records
- Last claim (after all adjustments have been taken)

Encounters:

- Dental Encounter Data
- Behavioral Health Encounter Data

Exclude:

- Deleted records
- MCO and CHP+ Encounter Data

Supplemental Data

The following data may be incorporated into appropriate measures where available and appropriate:

- Colorado Immunization Registry (CIIS)
- Clinical/EHR Data
- Laboratory Data
- Vital Records Data

Section 3: Baselines and Targets

Evaluation and Baseline Periods

Performance Period: July 1, 2023 through June 30, 2024

Baseline Period: July 1, 2021 through June 30, 2022

Calculation of Department Goals

Measures in the BHIP Program that are using national standards have Department Stretch Goals typically based on the NCQA 90th percentile for all Medicaid Lines of Business, when available. When unavailable, the Department will use the Top Performer to develop a Department Goal.

(Top Performer) + (10% of Top Performer) = Department Goal

Gap Closure

The targets for indicators are based on a 10% gap closure methodology from baseline to Department goal.

Each RAE will be responsible for closing their performance gap (between SFY 21-22 performance and the identified HCPF Goal) by 10% during the performance year (SFY 23-24). Please see the example below.
