EVV Overview - August 2023

Compliance - Match Rate & Strike Report

- Learn more, visit the [EVV Resources](#) web page to review the [EVV CDASS Compliance Protocol](#).

Quality Review - Unmodified EVV July 2023

Update: Based on stable EVV Compliance rates of claims matching and unmodified EVV the next EVV report will be shared in October 2023.

The Department of Health Care Policy and Financing (HCPF) encourages CDASS Members to support their attendants to improve unmodified EVV data collection by using the mobile visit verification (MVV) or telephone visit verification (TVV) tools.

- **Unmodified EVV**, EVV captured at time of services, real-time using MVV and TVV. Does not have any manual edits.
- **Modified EVV** - EVV visit with one or more of the six data points captured or modified after the time of service, can include manual edits.
