February 2023 100% No Strikes

March 2023 100% No Strikes

April 2023 99.99% No Strikes

Quality Review - Unmodified EVV June 2023

- Unmodified EVV, EVV captured at time of services, real-time using mobile visit verification (MVV) or telephone visit verification (TVV). Does not have any manual edits.
- Modified EVV EVV visit with one or more of the six data points captured or modified after the time of service, can include manual edits.
- Unmodified EVV for CDASS is consistently around 38%.
- This number is impacted by web-based portal entries.
- The more visits documented in real-time using the MVV or TVV the better this number will be.
- Tell us what are some barriers to collecting EVV in real time? The EVV Feedback Survey is still open till July 31, 2023. Tell us how you EVV? Take less than 5 minutes to tell us more about what impacts your EVV experience.
