

**COLORADO**

Department of Health Care  
Policy & Financing

Dear Provider,

Colorado has implemented a Prescriber Tool to help employers and Coloradans save money on healthcare by empowering providers with information on prescription drug costs and affordable alternatives. It reduces re-work and administrative burden for providers while improving convenience for patients.

To increase utilization of the Prescriber Tool, Colorado has contracted with Myers and Stauffer to develop an Alternative Payment Model (APM) to give added incentive payments to providers for incorporating the Tool into their practice.

Colorado has engaged with Myers and Stauffer to support the development of the APM. MSLC will be conducting stakeholder engagement to ensure that the APM is developed using input from stakeholders in order to best fit the need of providers and patients. The survey linked here will inquire about provider awareness and readiness, potential barriers, and quality metrics. It will take approximately 10-15 minutes to complete.

Please take 5-10 minutes to complete the below survey on provider awareness and readiness, potential barriers, and quality metrics.

[Survey Link](#)

If you have any additional comments or questions, please feel free to contact the Myers and Stauffer team at [CORXAPM@mslc.com](mailto:CORXAPM@mslc.com).

To learn more about Colorado's Prescriber Tool, please visit the [Prescriber Tool Project web page](#).

Thank you,

Department of Health Care Policy & Financing
