

# Prescriber Tool APM Performance Dashboards

March 1, 2023

# Prescriber Tool APM Goals

Help drive down annual pharmaceutical spend for Health First Colorado

Normalize real-time benefits check in prescribing workflow

Increase PDL compliance

Reward providers through shared savings

# Performance Dashboard

- Hosted on a secure webpage accessible only to participating practices.
- Presents Prescriber Tool APM performance metrics and level of achievement for each practice and its prescribers.
- Practices can filter their performance scores in a variety of ways to evaluate opportunities for improvement.
- Practices can compare their scores to statewide averages to further evaluate overall performance.

# Getting Started

The purpose of this short training session is to provide you with the following:

- An overview of the Prescriber Tool Alternative Payment Model (APM)
- A description of the performance metrics and how they are calculated
- A walk-through of the performance dashboards, including login and functionality

Please review to the companion Prescriber Tool User Guide for detailed instructions.

# Getting Started (Cont.)

1. Each practice receives two emails from the dedicated email address: [corxapm@mslc.com](mailto:corxapm@mslc.com).
  - The first is an introductory message that includes a program overview and contact information for technical issues.
  - The second is practice-specific and includes login credentials (username and password).
2. The username for each practice is its 10-digit National Provider Identifier (NPI).
3. The password is a uniquely assigned 10-digit code, which cannot be changed. Lost or forgotten passwords must be retrieved by contacting the dedicated email address.

*Please refer to the Prescriber Tool User Guide for further instructions.*

# Login

1. Go to <https://corxapm.mslc.com/> to arrive at the landing page.

Department of Health Care  
Policy & Financing

## Prescriber Tool Alternative Payment Model (APM)

The Colorado Department of Health Care Policy & Financing (HCPF) has implemented a prescription benefit tool to promote cost-effective prescribing of Medicaid-covered outpatient drugs. The Prescriber Tool is a multifunctional platform accessible to prescribers through most electronic health record (EHR) systems. The Prescription Benefit Module of the Prescriber Tool promotes cost-effective prescribing for Health First Colorado members by prompting the use of lower net cost drugs, the pricing for which has already taken into account the fiscal benefit of federal and supplemental pharmacy rebates available to HCPF.

The Prescriber Tool offers three key features:

- Real-Time E-Prescribing: Prescribers can now send prescriptions electronically to pharmacies for Medicaid patients, increasing convenience and saving time for patients, prescribers and pharmacies.
- Real-Time Benefits Inquiry (RTBI): Prescribers now have rapid insight into preferred medications from the preferred drug list, empowering them with drug affordability and cost options.
- Real-Time Prior Authorization: Prescribers can now get rapid prior authorizations, reducing workload and avoiding manual entry, forms, faxes and lists.

Need Assistance? Submit all questions to [CORXAPM@mslc.com](mailto:CORXAPM@mslc.com).

Myers and Stauffer is assisting HCPF with the design of the Prescriber Tool APM, which includes development of performance dashboards. This web page provides program and practice level performance data dashboards that can be used by authorized users to review their performance on APM metrics, as well as to compare practice performance to statewide averages.

Beginning March 1, 2023, Myers and Stauffer will work with a selected pool of practices to test their access to and use of the performance dashboards. Feedback gained from the testing process will be used to finalize the dashboards and assist in readying the process for the statewide Prescriber Tool APM program launch in July 2023.

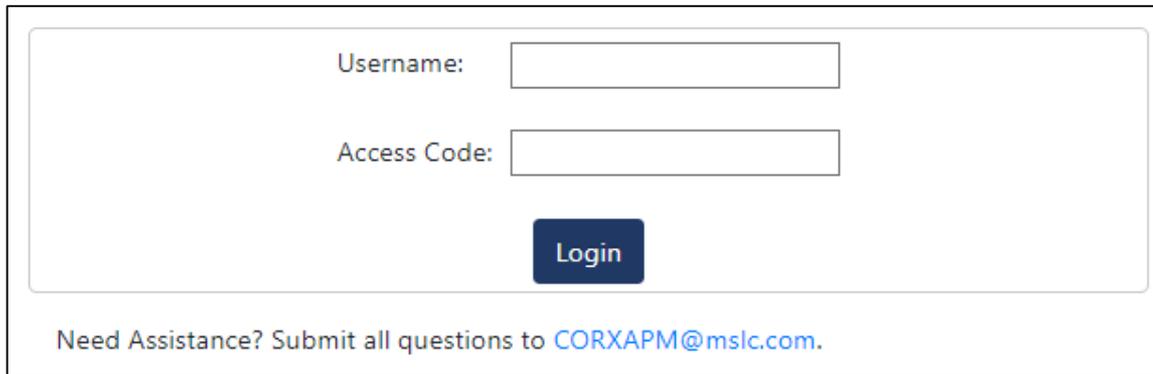

Additional information about the Prescriber Tool and APM is available [here](#). Questions regarding the web page, access, or performance scoring and results may be directed to [CORXAPM@mslc.com](mailto:CORXAPM@mslc.com).

# Practice Summary Dashboard

- There are two sections on the Practice Summary Dashboard:
  - Practice Performance Summary
  - Performance Detail
- The Practice Summary Dashboard defaults to the most recent State Fiscal Year (SFY) and Quarter of available data. The dashboard provides the user the option to filter data down to specific SFY and quarters.

*Note: Since the APM program is new, there will only be one quarter of data available.*

### Practice Performance Summary

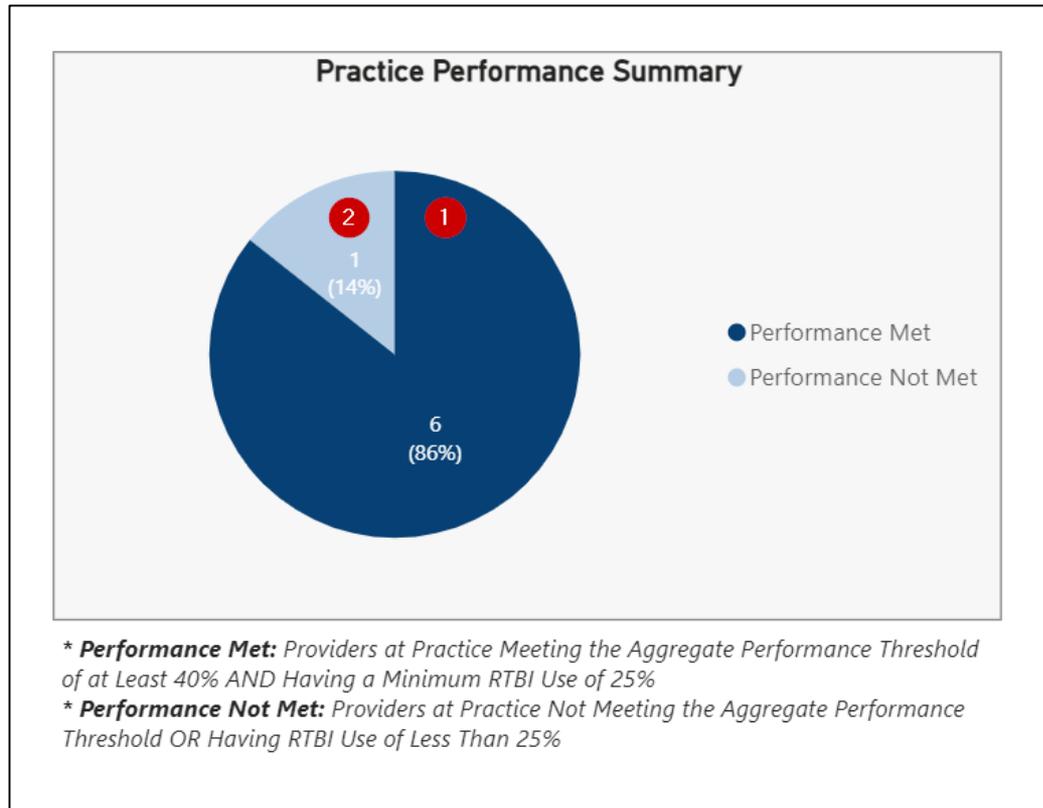

Practice Performance Summary

Comparison of Practice Performance to Statewide Average

Category	Value
Practice Performance	45%
Statewide Average	40%

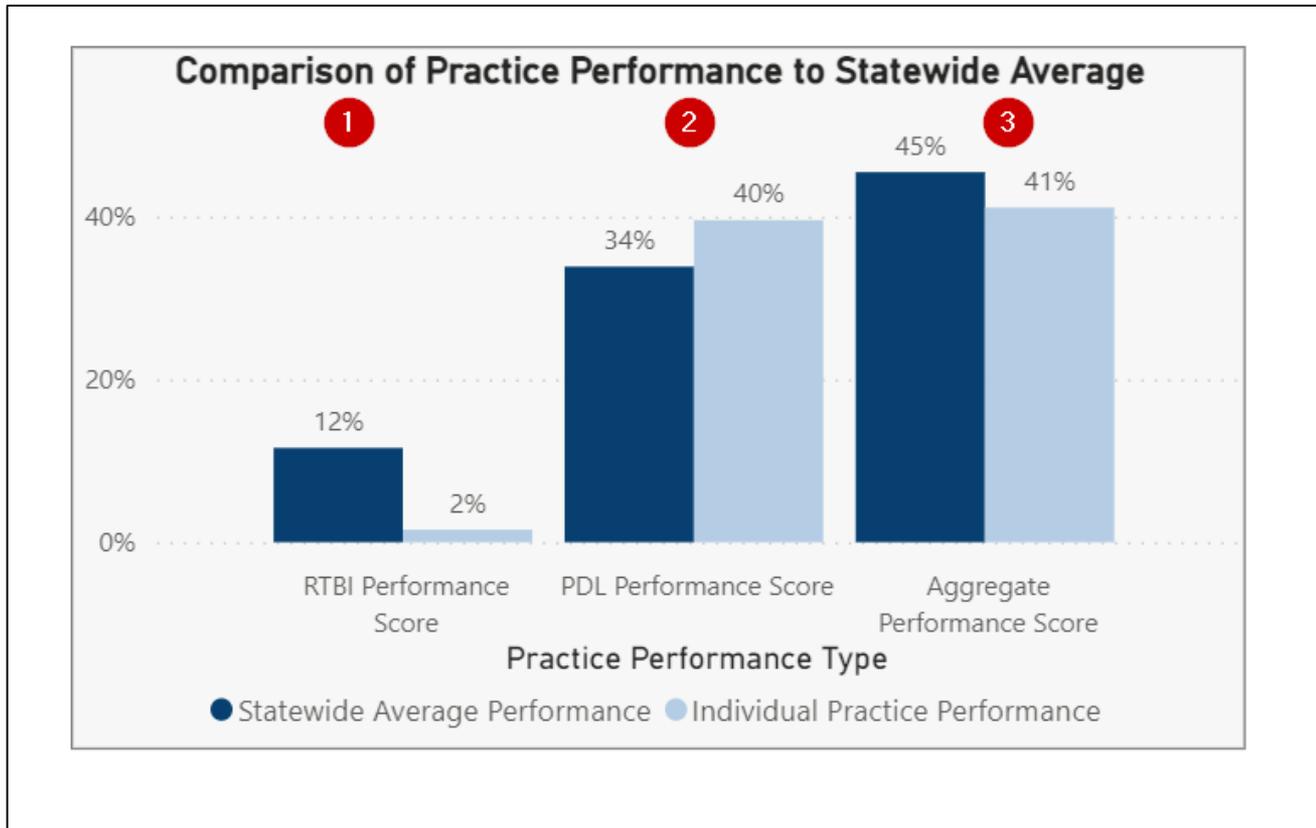

# Practice Performance Summary View

The Practice Performance Summary Pie Chart visually represents the percent comparison of the following:

1. The practice's attributed prescribers that met performance metrics.
2. The practice's attributed prescribers that did not meet performance metrics.

# Practice Performance Summary View

The **Comparison of Performance Scores to Statewide Average** chart compares the individual practice's performance against the statewide average performance metrics.

# When Finished

1. Log out by clicking on the Logout button located at the top of the Practice Summary page.
2. Please complete the survey, the link to which is included in the email that was sent to you with your login credentials.
  - *It should only take a few minutes of your time and will provide the Department with valuable feedback needed to ready the program for state-wide program launch in July 2023.*

## THANK YOU!
