

**COLORADO**

Department of Health Care  
Policy & Financing

Dear Provider,

The Colorado Department of Public Health & Environment recently published a [newsletter](#) with some important information on COVID-19 for maternity care service providers, including a recently developed [COVID-19 guidance document for labor and delivery and breastfeeding](#). This guidance document is available on the [COVID-19 Information for Health First Colorado and CHP+ Providers and Case Managers web page](#) under the Billing Guidance by Provider Type > Maternity Services drop-down section.

It is important for health care facilities that provide obstetric care for pregnant individuals to minimize the spread and impact of COVID-19 while ensuring excellent patient care and support. This guidance is intended to aid facilities and clinicians in applying the updated [Centers for Disease Control and Prevention \(CDC\) Considerations for Inpatient Obstetric Healthcare Settings](#) and [American Academy of Pediatrics \(AAP\) Critical Updates on COVID-19 Clinical Guidance](#). Guidance is based on the limited research available to date about COVID-19 and will be updated as new evidence becomes available.

Thank you,

Department of Health Care Policy & Financing
