Department of Health Care  
Policy & Financing

Dear Provider,

The State is transitioning from a mass COVID-19 vaccination model to a more provider-focused effort over the next few months. As a result, the Colorado Department of Public Health and Environment (CDPHE) encourages primary care practices to enroll in the COVID-19 Vaccine Program. The goal is to quickly mobilize additional COVID-19 vaccine providers across Colorado to increase access to COVID-19 vaccination for all residents.

CDPHE will host a webinar for primary care providers and their local partners in collaboration with the Colorado Department of Health Care Policy & Financing at 4:00 p.m. MT on Monday, June 28, 2021. The webinar will provide participants with COVID-19 Vaccine Program information and resources.
