Policy & Financing

Dear Providers,

Rate Increase For COVID-19 Vaccinations

Effective September 1, 2021, reimbursement for administration of the first dose of the Johnson & Johnson's Janssen COVID-19 vaccine as well as the first and second doses of the Moderna and Pfizer COVID-19 vaccines increased to \$61.77. The rate for subsequent doses will remain \$41.18. The increased rate will apply to the following codes: 0001A, 0002A, 0011A, 0012A, 0031A, 0071A and 0072A. Providers must resubmit qualifying claims, with a date of service of September 1, 2021 or later, in order to receive reimbursement at the higher rate.

Additional Payment for Administration of COVID-19 Vaccination in a Member's Home

Effective September 1, 2021, providers may submit claims for reimbursement for home administration of COVID-19 vaccines. The additional reimbursement is available when COVID-19 vaccine administration is the only service provided in the member's home. Providers should use code M0201. Claims for M0201 are limited to once per home, per date of service. M0201 should be billed along with a COVID-19 vaccine code (ex: 91300) and a COVID-19 vaccine administration code (ex: 0001A).
