

COLORADO

Department of Health Care
Policy & Financing

303 E. 17th Ave. Suite 1100
Denver, CO 80203

Information & Background

Doulas seeking to become an approved provider with Health First Colorado (Colorado's Medicaid program) must meet the qualifications and education requirements established in either the:

- Certification Pathway - hold a certification as a certified doula from a certifying body approved by the department. OR
- Experience Pathway - demonstrate the minimum requirements and submit all required documentation. For more information on this pathway, visit [the doula webpage](#).

Note: A designation of being an approved training organization for the certification pathway is given to organizations that have applied to be listed on the Doula website and met the minimum requirements. This designation does not constitute an endorsement of the services provided by the training organization. It is the responsibility of the individual seeking to become a certified doula to determine if any given training meets their specific preferences and requirements.

**This list is updated frequently. If you do not see your training organization listed here, please reach out to us [HCPF MaternalChildHealth - HCPF](#) to discuss further.

Note: For **individuals** applying to provide doula support to Health First Colorado members and be reimbursed for services under the certification pathway, who have received a certificate of completion from one of the two nationally and internationally recognized doula certifying organizations DONA International (DONA) and Childbirth and Postpartum Professional Association (CAPP), both organizations are approved training organizations.

If your **organization** is interested in being listed as an approved training organization for the "Certification Pathway", the application can be found [here](#).

Below is a list of currently approved training organizations. Please note that this list is of doula training organizations not Health First Colorado doula providers.

Approved Doula Training Organizations

List Updated: January 30th, 2025

Name of Organization	Point of Contact	Email Address
