Kelly O'Brien: (13:26) Rob, you have a feedback loop

Kelly O'Brien: (13:29) noise.

Rob: (13:33) not yet

Julie: (13:35) Thank you Gerri!

Leslie Rothman: (13:54) I am not comfortable with the concept of co-chairs.

Stephen Shaughnessy: (13:55) I also have some reservations about the co-chair concept

Stephen Shaughnessy: (13:56) Hopefully the transcript from the chat box will be provided to the notetaker so she can capture those comments from those folks who are not on the phone.

Leslie Rothman: (13:59) You have just identified that there will be a co-chair without consensus.

Shannon Kluth: (14:01) I don't agree with the co-chair concept

Leslie Rothman: (14:05) mics are not working. I don't agree either.

Shannon Kluth: (14:10) It is hard to get a shot to speak on the phone so that is why I am using the chat to express that I don't agree with the co-chair concept and if we could have time to think/consider other options

Charlene Willey: (14:14) Open meetings for co-chairs makes sense to me.

Candace: (14:18) Thank you all. We are working to restore audio

Rob: (14:18) Can you hear us on the phone?

Julie: (14:18) Yes

Rob: (14:18) ok

Charlene Willey: (14:18) no

hcpf trainers: (14:21) Thank you for your patience while we fixed the audio.
