Questions and Answers		
DRAFT July 2022 Coding Manual Attached - Please review	John	Would like the Description font larger
Review Appendix D (Should we remove E/M codes from Appendix since we have a dedicated appendix for E/M)?	John	Agreed to NOT remove E/M codes Agreed to remove SP/B3 columns - B3 info will be added to the B3 Appendix. Agreed to add Commercial Insurance and Medicare Columns to fold in information from Respective Appendices.
Review E/M Appendix	John	Agreed to include only numbers for the “providers that can bill” column and include a list to reference.
Review Service Categories section (significant deletion of content to summarize)	John	No discussion - just highlighted
Discuss EPSDT statement on Appendix D re: SP/B3	John	Did not discuss since we agreed to frame this information more closely to the 1915 B3 waiver definition and move the info to the B3 Appendix.
CPT Code 00104 - ECT Anesthesia - this cannot be billed with ECT - should this code be deleted?	John	Michele T will research utilization and f/u with HCPF
Modifier HO to be added to non-eligible Medicare providers who submit claims to RAEs (i.e. LMFT/LPC) -	John	HCPF received feedback that denying a claim that is missing the HO modifier is strongly opposed. John will f/u to review internally and respond.
Per the decision in February to add providers to neuro/psych testing, Discuss/Approve language added to Codes 96130, 96131, 96132, 96133, 96136, 96137, 96138, 96139 “If psychological testing services are performed by an intern or unlicensed service provider, services must be supervised and at the direction of a licensed provider, even though their presence is not required during administration. The licensed service provider ensures that the testing environment offers adequate privacy and confidentiality and maximizes the examinee’s performance.	John	Committee attendees will consult with their clinical staff and submit feedback to John with any edits.

All providers may perform diagnostic psychological and neuropsychological tests only if these services fall within their scope of practice.”		
Providers allowed for 96146	John	Agreed we would not add additional providers. Attendees will review CMS language about providers with their clinical staff/providers to suggest any possible clarifying language.
Additional Guidance on coding pages – strategy forward	John	Agreed to leave existing “additional guidance’ on the coding pages. John will only edit duplicative language that appears now that narrative language has been combined in the center section of the coding page.
Discuss RCCF reimbursement changes effective July 1, 2022 (remove RCCF from coding pages)	John	Attendees will seek feedback from staff/teams and provide input to John.
Outstanding/Parking Lot		
One of the directives that came from this consultant was the issue of federally funded services requiring a licensed signature on all services rendered. So for services like Case Management, Skills Training and Development, or Clubhouse services which are allowed to be rendered by staff who are unlicensed, notes would need to be co-signed by a licensed provider. Is it the understanding of the committee that this is the case for these services? I’m hearing mixed responses on this issue.	Alex Hale	John emailed out Guidance from HCPF re: CMHCs can be rendering provider – policy transmittal 2017.
Residential Coding pages PRTC/F (plus definition)	John	
Review Certified Prevention Specialist (CPS) credentials to evaluate which codes can be indicated for CPS	Amie Adams	https://www.coprovidersassociation.org/prevention-home Can we indicate this provider type is able to provide H0021, 23, 24, 25 on both OBH/MCD pages.
