

Community First Choice (CFC) Timeline - DRAFT

Text Only Version

Background

History: Community First Choice (CFC), also known as 1915(k), allows states to offer Health First Colorado members (Colorado's Medicaid Program) home and community-based attendant services and supports to eligible Medicaid enrollees under the State Plan. While Colorado does not offer services through CFC at this time, the state is currently working to design CFC with the goal of implementation by 2025. This timeline refers to several components of implementing CFC and outline important events and milestones that will impact the implementation of CFC in Colorado.

Stakeholder Involvement: The Colorado Department of Health Care Policy and Financing (the Department) has multiple stakeholder engagement opportunities, with the primary channel being the CFC Council. The Department put the CFC Council in place to collaborate with and advise the Department on the design and implementation a CFC option in Colorado. The CFC Council primarily consists of individuals with disabilities, those 65 years or older, and their representatives, however, is open to the public.

Purpose: This timeline refers to several components of implementing CFC, such as case management redesign and waiver amendments. This timeline is meant to highlight important events and milestones that will impact the implementation of CFC in Colorado. The Department will update this timeline as we continue to work through policy with stakeholders. The timeline includes but is not limited to the following: CFC, case management redesign, code of regulation changes, CFC systems changes, waiver amendments, and federal approvals.

Acronym Key

CCM = Care and Case Management System

CFC = Community First Choice

CFCM = Conflict Free Case Management

CMS = Centers for Medicare & Medicaid Services

HCPF = Department of Health Care Policy & Financing

MMIS = Medicaid Management Information System

MSB = Medical Services Board

PCBA = Person Centered Budget Algorithm

SPA = State Plan Amendment
