14            Medicaid discharges. Normalized points awarded equals the sum of points awarded,

15            normalized to a 100-point scale for measures a hospital is not eligible to complete. The

17            Bulletin.

18            Adjusted Medicaid Discharges equal inpatient Medicaid discharges multiplied by a

23            Medicaid discharges shall be multiplied by 125%.

24       b.       Dollars per-adjusted discharge point are determined using a qualified hospital's

25            normalized points awarded. Dollars per-adjusted discharge point are tiered so that

26            qualified hospitals with more normalized points awarded receive more dollars per-

27            adjusted discharge point. There are five tiers delineating the dollars per-adjusted

28            discharge point with each tier assigned a certain normalized points awarded range. For

29            each tier the dollars per-adjusted discharge point increase by a multiplier.

30            The multiplier and normalized points awarded for each tier are:

31

Tier	Normalized Points Awarded	Dollars Per-Adjusted Discharge Point
1	1-19	0(x)
2	20-39	1(x)
3	40-59	2(x)
