STATEMENT OF BASIS AND PURPOSE

1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).

The Office of Community Living is restructuring and revising certain rules to come into alignment with federal requirements for conflict free case management under Colorado’s Case Management Redesign. These revised rules are codified at 10 C.C.R. 2505-10, Sections 8.7000-7500. Case Management Redesign (CMRD) refers to several initiatives aimed at simplifying access to long-term services and supports, creating stability for the case management system, increasing and standardizing quality requirements, ensuring accountability, and achieving federal compliance. Updates to rule language are necessary to mirror the policies created for CMRD and to be able to hold provider agencies accountable to the CMRD requirements outside of contracts. The purpose of these updates is to delete old or conflicting rule provisions being made obsolete by the adoption of 8.7000-7500 and provide further updates to member rights, provider agency, and benefits rules. These rule updates revise and move certain regulations to the new section of rules at 8.7000-7500 and remove references to rules that are now repealed. Additionally, prompted by discussions with the Centers for Medicare & Medicaid Services (CMS) regarding the renewal of the Children’s Extensive Supports (CES) Waiver, the Department is requiring that settings where Youth Day Services are provided comply with the HCBS Settings Final Rule, as required by CMS, in order to allow members to continue receiving as much of this service as they need.

2. An emergency rule-making is imperatively necessary

- to comply with state or federal law or federal regulation and/or
- for the preservation of public health, safety and welfare.

Explain: No emergency rule-making is contemplated.

3. Federal authority for the Rule, if any:

42 C.F.R. § 441.301(c)(1)(vi)

4. State Authority for the Rule:

Sections 25.5-1-301-303-313, 25.5-5-306(1), 25.5-6-107, 25.5-6-401-411, 601-607, 701-706, 901, 13.01-13.04, 27-10.5-101-103, 27-10.5-401, C.R.S. (2024).

REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

All members who receive Home and Community Based Services (HCBS) will be affected by these rules, as will all HCBS providers and case management agencies. The Department believes these updates will positively impact all stakeholders by removing outdated, conflicting, or repetitive language and more clearly describing requirements for provider agencies and case management agencies.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

Stakeholders should experience a positive qualitative impact from these regulations. With the repeal of outdated, conflicting, and repetitive language, members, provider agencies and other stakeholders will find it easier to locate pertinent sections of the rules. There are no economic impacts from this rule.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

The proposed amendments will not result in any additional costs to the Department or any other agency.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

If the Department does not repeal the outdated conflicting and repetitive regulations, we will be unable to finalize the work of Case Management Redesign. The redesign of regulations was needed to mandate case management requirements that are outside the scope of contracts. Additionally, without the revisions to the regulations governing long-term care services, the Department would not meet its goals of simplifying access to long-term services and supports, creating stability for the case management system, increasing and standardizing quality requirements, ensuring accountability, and achieving federal compliance.

Provider agencies of the Youth Day Service may experience costs to come into compliance with the Final Settings Rule. However, the Department is working closely with those providers to provide technical support in the transition process.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

There are no less costly methods to achieving the purpose of this repeal and rule updates.

6. Describe any alternative methods for achieving the purpose for the proposed rule that were seriously considered by the Department and the reasons why they were rejected in favor of the proposed rule.

No other methods exist to repeal and update outdated regulations.

30 **8.7001.B Individual Rights under the Home and Community-Based Services (HCBS) Settings**
31 **Final Rule**

32 1. Statement of Purpose, Scope, and Enforcement

33 a. The purpose of this Section 8.7001.B is to implement the requirements of the federal
34 Home and Community-Based Services (HCBS) Settings Final Rule, 79 Fed. Reg. 2947
35 (2014), codified at 42 C.F.R. § 441.301(c)(4). These rules identify individual rights that
36 are protected at settings where people live or receive HCBS. They also set out a process
37 for modifying these rights as warranted in individual cases. These rules apply to all HCBS
38 under all authorities, except where otherwise noted.

- 1 b. This Section 8.7001.B is enforced pursuant to existing procedures., ~~subject to the~~
2 ~~following transition period and Corrective Action Plan (CAP) exceptions:~~
- 3 ~~i. The following settings were presumed compliant during the transition period and remain~~
4 ~~covered by this presumption until March 17, 2023:~~
- 5 ~~1) Residential settings owned or leased by individuals receiving HCBS or their families~~
6 ~~(personal homes);~~
- 7 ~~2) Professional provider offices and clinics;~~
- 8 ~~3) Settings where children receive Community Connector services under the Children's~~
9 ~~Extensive Supports (CES) Waiver; and~~
- 10 ~~4) Settings where people receive individual Supported Employment services.~~
- 11 ~~ii. Any setting for which a Provider Transition Plan (PTP) has been submitted by December~~
12 ~~30, 2021 may continue to transition toward compliance according to the schedule set~~
13 ~~forth in the Provider Transition Plan. This exception is to be narrowly construed and does~~
14 ~~not apply to other situations, such as, by way of illustration only, non-compliance:~~
- 15 ~~1) At Case Management Agencies;~~
- 16 ~~2) At a setting for which a Provider Transition Plan was not submitted by December 30,~~
17 ~~2021 for any reason;~~
- 18 ~~3) At a setting after the applicable deadline in the setting's Provider Transition Plan, with the~~
19 ~~deadline being (i) three months after the Provider Transition Plan was submitted unless~~
20 ~~adjusted with departmental approval and (ii) in no event after March 17, 2023, or March~~
21 ~~17, 2024 for settings that have received departmental approval for an extension pursuant~~
22 ~~to the Corrective Action Plan; or~~
- 23 ~~4) Involving compliance issues that have been verified as resolved through the Provider~~
24 ~~Transition Plan process and therefore no longer subject to transition.~~

25 2. Basic Criteria Applicable to All HCBS Settings

- 26 a. All HCBS Settings must have all of the following qualities and protect all of the following
27 individual rights, based on the needs of the individual as indicated in their Person-
28 Centered Support Plan, subject to the Rights Modification process in Section 8.7001.B.4:
- 29 i. The setting is integrated in and supports full access of individuals to the greater
30 community, including opportunities to seek employment and work in competitive
31 integrated settings, control personal resources, receive services in the
32 community, and engage in community life, including with individuals who are not
33 paid staff/Contractors and do not have disabilities, to the same degree of access
34 as individuals not receiving HCBS.
- 35 1) Individuals are not required to leave the setting or engage in community
36 activities. Individuals must be offered and have the opportunity to select
37 from Age-Appropriate Activities and Materials both within and outside of
38 the setting.

- 1 2) Integration and engagement in community life includes supporting
2 individuals in accessing public transportation and other available
3 transportation resources.
- 4 3) Individuals receiving HCBS are not singled out from other community
5 members through requirements of individual identifiers, signage, or other
6 means.
- 7 4) Individuals may communicate privately with anyone of their choosing.
- 8 5) Methods of communication are not limited by the provider.
- 9 a) The setting must always provide access to shared telephones if
10 it is a Provider-Owned or -Controlled Residential Setting and
11 during business hours if it is a Provider-Owned or -Controlled
12 Non-Residential Setting.
- 13 b) Individuals are allowed to maintain and use their own cell
14 phones, tablets, computers, and other personal communications
15 devices, at their own expense.
- 16 c) Individuals are allowed to access telephone, cable, and Ethernet
17 jacks, as well as wireless networks, in their rooms/units, at their
18 own expense.
- 19 6) Individuals have control over their personal resources, including money
20 and personal property. If an individual is not able to control their
21 resources, an aAssessment of their skills must be completed and
22 documented in their Person-Centered Support Plan. The Assessment
23 and Person-Centered Support Plan must identify what individualized
24 assistance the provider or other person will provide and any training for
25 the individual to become more independent, based on the outcome of the
26 Assessment.
- 27 a) Provider Agencies may not insist on controlling an individual's
28 funds as a condition of providing services and may not require
29 individuals to sign over their Social Security checks or
30 paychecks.
- 31 b) A pProvider Agency may control an individual's funds if the
32 individual so desires, or if it has been designated as their
33 representative payee under the Social Security Administration's
34 (SSA's) policies. If a pProvider Agency holds or manages an
35 individual's funds, their signed Person-Centered Support Plan
36 must:
- 37 i) Document the request or representative payee
38 designation;
- 39 ii) Document the reasons for the request or designation;
40 and

1
2
3
4
iii) Include the parties' agreement on the scope of managing the funds, how the Provider Agency should handle the funds, and what they define as "reasonable amounts" under Section 25.5-10-227, C.R.S.

5
6
7
8
c) The Provider Agency must ensure that the individual can access and spend money at any time, including on weekends, holidays, and evenings, including with assistance or supervision if necessary.

9
10
11
12
13
ii. The setting is selected by the individual from among setting options, including non-disability specific settings and an option for a private unit in a residential setting. The setting options are identified and documented in the Person-Centered Support Plan and are based on the individual's needs, preferences, and, for residential settings, resources available for room and board.

14
15
iii. The setting ensures an individual's rights of privacy, dignity, and respect, and freedom from coercion and Restraint.

16
17
18
1) The right of privacy includes the right to be free of cameras, audio monitors, and devices that chime or otherwise alert others, including silently, when a person stands up or passes through a doorway.

19
20
21
22
23
24
25
a) The use of cameras, audio monitors, chimes, and alerts in (a) interior areas of residential settings, including common areas as well as bathrooms and bedrooms, and in (b) typically private areas of non-residential settings, including bathrooms and changing rooms, is acceptable only under the standards for modifying rights on an individualized basis pursuant to Section 8.7001.B.4.

26
27
28
29
30
31
32
33
34
35
36
37
38
b) If an individualized Assessment indicates that the use of a camera, audio monitor, chime, or alert in the areas identified in the preceding paragraph is necessary for an individual, this modification must be reflected in their Person-Centered Support Plan. The Person-Centered Support Plans of other individuals at that setting must reflect that they have been informed in Plain Language of the camera(s)/monitor(s)/chime(s)/alert(s) and any methods in place to mitigate the impact on their privacy. The provider must ensure that only appropriate staff/Contractors have access to the camera(s)/monitor(s)/chime(s)/alert(s) and any recordings and files they generate, and it must have a method for secure disposal or destruction of any recordings and files after a reasonable period.

39
40
41
42
43
c) Cameras, audio monitors, chimes, and alerts on staff-only desks and exterior areas, cameras on the exterior sides of entrances/exits, and cameras typically found in integrated employment settings, generally do not raise privacy concerns, so long as their use is similar to that practiced at non-HCBS

1 Settings. In Provider-Owned or -Controlled Settings, notice must
 2 be provided to all individuals that they may be on camera and
 3 specify where the cameras are located. If such devices have the
 4 effect of restricting or controlling egress or monitoring the coming
 5 and going of individuals, they are subject to the Rights
 6 Modification requirements of Section 8.7001.B.4.

7 d) Audio monitors, chimes, motion-activated bells, silent or auditory
 8 alarms, and alerts on entrances/exits at residential settings have
 9 the effect of restricting or controlling egress and are subject to
 10 the Rights Modification requirements of Section 8.7001.B.4. If
 11 such devices on entrances/exits at non-residential settings have
 12 the effect of restricting or controlling egress or monitoring the
 13 coming and going of individuals, they are subject to the Rights
 14 Modification requirements of Section 8.7001.B.4.

15 2) The right of privacy includes the right not to have one's name or other
 16 confidential items of information posted in common areas of the setting.

17 iv. The setting fosters individual initiative and autonomy, and the individual is
 18 afforded the opportunity to make independent life choices. This includes, but is
 19 not limited to, daily activities, physical environment, and with whom to interact.

20 v. The setting facilitates individual choice regarding services and supports, and who
 21 provides them.

22 vi. The Person-Centered Support Plan drives the services afforded to the individual,
 23 and the setting staff/Contractors are trained on this concept and person-centered
 24 practices, as well as the concept of dignity of risk.

25 vii. Each individual is afforded the opportunity to:

26 1) Lead the development of, and grant informed consent to, any provider-
 27 specific treatment, care, ~~or~~ supports, or service plan;

28 2) Have freedom of religion and the ability to participate in religious or
 29 spiritual activities, ceremonies, and communities;

30 3) Live and receive services in a clean, safe environment;

31 4) Be free to express their opinions and have those included when any
 32 decisions are being made affecting their life;

33 5) Be free from physical abuse and inhumane treatment;

34 6) Be protected from all forms of sexual exploitation;

35 7) Access necessary medical care which is adequate and appropriate to
 36 their condition;

37 8) Exercise personal choice in areas including personal style; and

1 9) Accept or decline services and supports of their own free will and on the
2 basis of informed choice.

3 ~~viii~~. Nothing in this rule shall be construed to prohibit necessary assistance as
4 appropriate to those individuals who may require such assistance to exercise
5 their rights.

6 ix. Nothing in this rule shall be construed to interfere with the ability of a Guardian or
7 other Legally Authorized Representative to make decisions within the scope of
8 their guardianship order or other authorizing document.

9 3. Additional Criteria for HCBS Settings

10 a. Provider-Owned or -Controlled Residential Settings must have all of the following
11 qualities and protect all of the following individual rights, based on the needs of the
12 individual as indicated in their Person-Centered Support Plan, subject to the Rights
13 Modification process in Section 8.7001.B.4:

14 i. The unit or dwelling is a specific physical place that can be owned, rented, or
15 occupied under a legally enforceable agreement by the individual, and the
16 individual has, at a minimum, the same responsibilities and protections from
17 eviction that tenants have under the landlord/tenant law of the State, county, city,
18 or other designated entity. For settings in which landlord/tenant laws do not apply,
19 a lease, residency agreement, or other form of written agreement must be in
20 place for each individual, and the document must provide protections that
21 address eviction processes and appeals comparable to those provided under the
22 jurisdiction's landlord/tenant law.

23 1) The lease, residency agreement, or other written agreement must:

24 a) Provide substantially the same terms for all individuals;

25 b) Be in Plain Language, or if the ~~p~~Provider Agency/its independent
26 Contractor cannot adjust the language, at least be explained to
27 the individual in Plain Language;

28 c) Provide the same responsibilities and protections from eviction
29 that tenants have under the landlord/tenant law of their State,
30 county, city, or other designated entity, or comparable
31 responsibilities and protections, as the case may be, and
32 indicate the authorities that govern these responsibilities,
33 protections, and related disputes;

34 d) Specify that the individual will occupy a particular room or unit;

35 e) Explain the conditions under which people may be asked to
36 move or leave;

37 f) Provide a process for individuals to dispute/appeal and seek
38 review by a neutral decisionmaker of any notice that they must
39 move or leave, or tell individuals where they can easily find an

- 1 explanation of such a process, and state this information in any
2 notice to move or leave;
- 3 g) Specify the duration of the agreement;
- 4 h) Specify rent or room-and-board charges;
- 5 i) Specify expectations for maintenance;
- 6 j) Specify that staff/Contractors will not enter a unit without
7 providing advance notice and agreeing upon a time with the
8 individual(s) in the unit;
- 9 k) Specify refund policies in the event of a resident's absence,
10 hospitalization, voluntary or involuntary move to another setting,
11 or death; and
- 12 l) Be signed by all parties, including the individual or, if within the
13 scope of their authority, their Guardian or other Legally
14 Authorized Representative.
- 15 2) The lease, residency agreement, or other written agreement may:
- 16 a) Include generally applicable limits on furnishing/decorating of the
17 kind that typical landlords might impose; and
- 18 b) Provide for a security deposit or other provisions outlining how
19 property damage will be addressed.
- 20 3) The lease, residency agreement, or other written agreement may not
21 modify the individual rights protected under Sections 8.7001.B.2 and
22 8.7001.B.3, such as (a) by imposing individualized terms that modify
23 these conditions or (b) by requiring individuals to comply with house
24 rules or resident handbooks that modify everyone's rights.
- 25 4) Provider Agencies and their independent Contractors must engage in
26 documented efforts to resolve problems and meet residents' care needs
27 before seeking to move individuals or asking them to leave. Provider
28 Agencies and their independent Contractors must have a substantial
29 reason for seeking any move/eviction (e.g., protection of someone's
30 health/safety), and minor personal conflicts do not meet this threshold.
- 31 5) A violation of a lease or residency agreement, a change in the resident's
32 medical condition, or any other development that leads to a notice to
33 leave must include at least 30 calendar days' notice to the individual (or,
34 if authorized, their Guardian or other Legally Authorized Representative).
- 35 6) If an individual has not moved out after the end of a 30-day (or longer)
36 notice period, the ~~p~~Provider Agency/its independent Contractor may not
37 act on its own to evict the individual until the individual has had the
38 opportunity to pursue and complete any applicable Grievance,
39 Complaint, dispute resolution, and/or court processes, including

- 1 obtaining a final decision on any appeal, request for reconsideration, or
2 further review that may be available.
- 3 7) A ~~p~~Provider Agency/its independent Contractor may not require an
4 individual who has nowhere else to live to leave the setting.
- 5 8) This Subsection 8.7001.B.3.a.i. does not apply to children under age 18.
- 6 ii. Individuals have the right to dignity and privacy, including in their living/sleeping
7 units. This right to privacy includes the following criteria:
- 8 1) Individuals must have a key or key code to their home, a bedroom door
9 with a lock and key, lockable bathroom doors, privacy in changing areas,
10 and a lockable place for belongings, with only appropriate
11 staff/Contractors having keys to such doors and ~~storage areas locks~~.
12 Staff/Contractors must knock and obtain permission before entering
13 individual units, bedrooms, bathrooms, and changing areas.
14 Staff/Contractors may use keys to enter these areas and to open private
15 storage spaces only under limited circumstances agreed upon with the
16 individual. If an individual's lockable place for their belongings is a locker,
17 the ~~p~~Provider Agency must supply a padlock and key/combination.
- 18 2) Individuals shall have choice in a roommate/housemate. Provider
19 Agencies must have a process in place to document expectations and
20 outline the process to accommodate choice.
- 21 3) Individuals have the right to furnish and decorate their sleeping and/or
22 living units in the way that suits them, while maintaining a safe and
23 sanitary environment and, for individuals age 18 and older, complying
24 with the applicable lease, residency agreement, or other written
25 agreement.
- 26 iii. The Residential Setting does not have institutional features not found in a typical
27 home, such as staff uniforms; entryways containing ~~numerous~~ staff postings or
28 messages; or labels on drawers, cupboards, or bedrooms for staff convenience.
- 29 iv. Individuals have the freedom and support to determine their own schedules and
30 activities, including methods of accessing the greater community;
- 31 v. Individuals have access to food at all times, choose when and what to eat, have
32 input in menu planning (if the setting provides food), have access to food
33 preparation and storage areas, can store and eat food in their room/unit, and
34 have access to a dining area for meals/snacks with comfortable seating where
35 they can choose their own seat, choose their company (or lack thereof), and
36 choose to converse (or not);
- 37 vi. Individuals are able to have visitors of their choosing at any time and are able to
38 socialize with whomever they choose (including romantic relationships);
- 39 vii. The setting is physically accessible to the individual, and the individual has
40 unrestricted access to all common areas, including areas such as the bathroom,
41 kitchen, dining area, and comfortable seating in shared areas. If the individual

- 1 wishes to do laundry and their home has laundry machines, the individual has
2 physical access to those machines; and
- 3 viii. Individuals are able to smoke and vape nicotine products in a safe, designated
4 outdoor area, unless prohibited by the restrictions on smoking near entryways set
5 forth in the Colorado Clean Indoor Air Act, Section 25-14-204(1)(ff), C.R.S., or
6 any law of the county, city, or other local government entity.
- 7
- 8 b. Other Residential Settings in which one or more individuals receiving 24-hour residential
9 services and supports reside must have all of the qualities of and protect all of the same
10 individual rights as Provider-Owned or -Controlled Residential Settings, as listed above,
11 other than Subsection 8.7001.B.3.a.i relating to a lease or other written agreement
12 providing protections against eviction, subject to the Rights Modification process in
13 Section 8.7001.B.4.
- 14 c. Other Residential Settings in which no individuals receiving 24-hour residential services
15 and supports reside are excluded from this Section 8.7001.B.3.
- 16 i. This group of settings includes, but is not limited to, homes in which no individual
17 receives Individual Residential Service and Supports (IRSS) and one or more
18 individuals receive Consumer-Directed Attendant Support Services (CDASS),
19 Health Maintenance Services, Homemaker Services, In-Home Support Services
20 (IHSS), and/or Personal Care Services.
- 21 d. Provider-Owned or -Controlled Non-Residential Settings must have all of the qualities of
22 and protect all of the same individual rights as Provider-Owned or -Controlled Residential
23 Settings, as listed above, other than Subsection 8.7001.B.3.a.i relating to a lease or other
24 written agreement providing protections against eviction and Subsection 8.7001.B.3.a.ii
25 relating to privacy in one's living/sleeping unit, subject to the Rights Modification process
26 in Section 8.7001.B.4.
- 27 i. Provider-Owned or -Controlled Non-Residential Settings must afford individuals
28 privacy in bathrooms and changing areas and a lockable place for belongings,
29 with only the individuals and appropriate staff/Contractors having keys to such
30 doors and ~~storage areas locks~~. In addition to supplying a locker, the Provider
31 Agency must supply a padlock and key/combination.
- 32 ii. This Section 8.7001.B.3 does not require Non-Residential Settings to provide
33 food if they are not already required to do so under other authorities. This Section
34 8.7001.B.3 requires Non-Residential Settings to ensure that individuals have
35 access to their own food at any time.
- 36 e. Other Non-Residential Settings must have all of the qualities of and protect the same
37 individual rights as Provider-Owned or -Controlled Non-Residential Settings, as stated
38 immediately above, to the same extent for HCBS participants as they do for other
39 individuals, subject to the Rights Modification process in Section 8.7001.B.4.
- 40 4. Rights Modifications

- 1 a. Any modification of an individual's rights must be supported by a specific assessed need
2 and justified in the Person-Centered Support Plan, pursuant to the process set out in
3 Sections 8.7001.B.4.c and 8.7001.B.4.d below. Rights Modifications may not be imposed
4 across-the-board and may not be based on the convenience of the pProvider Agency/its
5 independent Contractor. The pProvider Agency/its independent Contractor must ensure
6 that a Rights Modification does not infringe on the rights of individuals not subject to the
7 modification. Wherever possible, Rights Modifications should be avoided or minimized,
8 consistent with the concept of dignity of risk.
- 9 b. The process set out in Sections 8.7001.B.4.c-d below applies to all Rights Modifications.
- 10 c. For a Rights Modification to be implemented, the following information must be
11 documented in the individual's Person-Centered Support Plan, and any pProvider
12 Agency/its independent Contractor implementing the Rights Modification must maintain a
13 copy of the documentation:
- 14 i. The right to be modified.
- 15 ii. The specific and individualized assessed need for the Rights Modification.
- 16 iii. The positive interventions and supports used prior to any Rights Modification, as
17 well as the plan going forward for the pProvider Agency/its independent
18 Contractor to support the individual in learning skills so that the modification
19 becomes unnecessary.
- 20 iv. The less intrusive methods of meeting the need that were tried but did not work.
- 21 v. A clear description of the Rights Modification that is directly proportionate to the
22 specific assessed need. Rights of an individual receiving services may be
23 modified only in a manner that will promote the least restriction on the individual's
24 rights and in accordance with rules herein.
- 25 vi. A plan for regular collection of data to measure the ongoing effectiveness of and
26 need for the Rights Modification, including specification of the positive behaviors
27 and objective results that the individual can achieve to demonstrate that the
28 Rights Modification is no longer needed.
- 29 vii. An established timeline for periodic reviews of the data collected under the
30 preceding paragraph. The Rights Modification must be reviewed and updated as
31 necessary upon reassessment of functional need at least every 12 months, and
32 sooner if the individual's circumstances or needs change significantly, the
33 individual requests a review/revision, or another authority requires a
34 review/revision.
- 35 viii. The Informed Consent of the individual (or, if authorized, their gGuardian or other
36 Legally Authorized Representative) agreeing to the Rights Modification, as
37 documented on a completed and signed Department-prescribed form. To be
38 completed, the form must be filled out using Plain Language, addressed directly
39 to the individual, and it must address only one Rights Modification. Informed
40 Consent may not be requested or granted for a Rights Modification extending
41 beyond the 12-month or shorter period as set out in Section 8.7001.B.4.c.vii.

- 1 ix. An assurance that interventions and supports will cause no harm to the
2 individual, including documentation of the implications of the modification for the
3 individual's everyday life and the ways the modification is paired with additional
4 supports or other approaches to prevent harm or discomfort and to mitigate any
5 ~~undesired~~ effects of the modification.
- 6 x. Alternatives to consenting to the Rights Modification, along with their most
7 significant likely consequences.
- 8 xi. An assurance that the individual will not be subject to retaliation or prejudice in
9 their receipt of appropriate services and supports for declining to consent or
10 withdrawing their consent to the Rights Modification.
- 11 d. Additional Rights Modification process requirements:
- 12 i. Prior to obtaining Informed Consent, the Case Manager must offer the individual
13 the opportunity to have an advocate, who is identified and selected by the
14 individual, present at the time that Informed Consent is obtained. The Case
15 Manager must offer to assist the individual, if desired, in identifying an
16 independent advocate who is not involved with providing services or supports to
17 the individual. These offers and the individual's response must be documented
18 by the Case Manager.
- 19 ii. Any Provider Agencies that desire or expect to be involved in implementing a
20 Rights Modification may supply to the Case Manager information required to be
21 documented under this Section 8.7001.B.4, except for documentation of
22 Informed Consent and the offers and response relating to an advocate, which
23 may be obtained and documented only by the Case Manager. The individual
24 determines whether any information supplied by the Provider Agency is
25 satisfactory before the Case Manager enters it into their Person-Centered
26 Support Plan.
- 27 iii. When a Rights Modification is proposed, it is reviewed by the individual, their
28 Guardian or other Legally Authorized Representative, and the rest of the
29 individual's Member Identified Team and, if consented to, it is documented in the
30 Person-Centered Support Plan.
- 31 iv. When a right has been modified, the continuing need for such modification shall
32 be reviewed by the individual's Member Identified Team, as led by the individual
33 or their Guardian or other Legally Authorized Representative, at a frequency
34 decided by the team, but at least every six months.
- 35 1) Such review shall include the original reason for modification, current
36 circumstances, success or failure of programmatic intervention, and the
37 need for continued modification.
- 38 2) Restoration of affected rights shall occur as soon as circumstances
39 justify.
- 40 3) If the review indicates that changes are needed to the Rights
41 Modification, the Case Manager shall obtain a new signature on an

1 updated Department-prescribed Informed Consent form. If the review
2 indicates that no changes are needed, then the original signature is still
3 valid for the remaining period (up to six months).

- 4 v. At the time a right is modified, such action if subject to Human Rights Committee
5 review shall be referred to the Human Rights Committee for review and
6 recommendation. Such review shall include an opportunity for the individual or
7 Member who is affected, Parent of a minor, Guardian or other Legally Authorized
8 Representative, after being given reasonable notice of the meeting, to present
9 relevant information to the Human Rights Committee.

10 e. Use of Restraints

- 11 i. If Restraints are used with an individual at an HCBS Setting, their use must:

- 12 1) Be based on an assessed need after all less restrictive interventions
13 have been exhausted;
14 2) Be documented in the individual's Person-Centered Support Plan as a
15 modification of the generally applicable rights protected under Section
16 8.7001.B.2, consistent with the Rights Modification process in this
17 Section 8.7001.B.4; and
18 3) Be compliant with any applicable waiver.

- 19 ii. Prone Restraints are prohibited in all circumstances. Nothing in this Subsection
20 8.7001.B.4.e permits the use of any Restraint that is precluded by other
21 authorities.

- 22 f. If Restrictive or Controlled Egress Measures are used at an HCBS Setting, they must:

- 23 i. Be implemented on an individualized (not setting-wide) basis;
24 ii. Make accommodations for individuals in the same setting who are not at risk of
25 unsafe wandering or exit-seeking behaviors;
26 iii. Be documented in the individual's Person-Centered Support Plan as a
27 modification of the generally applicable rights protected under Section
28 8.7001.B.2, consistent with the Rights Modification process in this Section
29 8.7001.B.4, with the documentation including:
30 1) An Assessment of the individual's unsafe wandering or exit-seeking
31 behaviors (and the underlying conditions, diseases, or disorders relating
32 to such behaviors) and the need for safety measures;
33 2) Options that were explored before any modifications occurred to the
34 Person-Centered Support Plan;
35 3) The individual's understanding of the setting's safety features, including
36 any Restrictive or Controlled Egress Measures;
37 4) The individual's choices regarding measures to prevent unsafe
38 wandering or exit-seeking;

- 1 5) The individual's (or, if authorized, their Guardian's or other Legally
