

Hello,

I am the parent of a child who is in the FSSP program in Fort Collins. I am unable to attend the meeting on Friday so I thought an email might help.

I'm not sure why FSSP would want to complicate their system and the lives of the families receiving the monthly reimbursements. My life as a special needs parent is hard enough. Asking us to save and keep track of every receipt for reimbursement gives me a headache just thinking about it. And for the person who might have to deal with all of that! It seems like it would just complicate everyone's lives. I don't get it and am definitely against it.

Thanks,  
Deena Warren
