Title of Rule: Revision to the Special Financing Division Colorado Dental Health Care Program for Low-Income Seniors and Old Age Pension Concerning SB21-199, Section 8.900

Rule Number: MSB 22-05-27-A

REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

This will benefit all low-income aging individuals that were not able to participate in the Colorado Dental Health Care Program for Low-Income Seniors and the Old Age Pension Health Care Program due to not being able to prove lawful presence in the U.S. There will be no incurred costs for any classes.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

This rule update will allow the low-income aging population, that cannot prove lawful presence in the U.S. the ability to obtain services through the Colorado Dental Health Care Program for Low-Income Seniors and the Old Age Pension Health Care Program.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

The Department will have no fiscal impact with this rule change. The funds for the Colorado Dental Health Care Program for Low-Income Seniors and the Old Age Pension Health Care Program are appropriated, and this rule update will have no effect on the appropriation.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

This rule change is required due to the passing of Senate Bill 21-199.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

The Department does not foresee any fiscal impact on this rule change and there are not any less costly methods that were considered.

Maxillary partial denture – cast metal framework with resin denture bases (including any conventional clasps, rests and teeth)	D5213	\$844.31	\$784.31	\$60.00	<p>Reimbursement made upon delivery of a complete partial maxillary denture to the client. D5213 and D5214 are considered definitive treatment. Routine follow-up adjustments or relines within 6 months are to be anticipated and are included in the initial reimbursement. A partial cast metal base can also be made right after having teeth extracted (healing from only a few teeth is not as extensive as healing from multiple). A partial cast metal base denture can be made before having teeth extracted if the teeth being removed are in the front or necessary healing will be minimal. Several impressions and “try-in” appointments may be necessary and are included in the cost. Frequency: Program will only pay for one maxillary per every five years - documentation that existing prosthesis cannot be made serviceable must be maintained.</p>
