Rule Number: MSB 24-05-07-A
Division / Contact / Phone: Special Financing Division / Chandra Vital / 303-866-8086

STATEMENT OF BASIS AND PURPOSE

1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).

The Dental Advisory Committee recommended that addition of D7285-Incisional biopsy of oral tissue-hard (bone, tooth), D7410-Excision of benign lesion up to 1.25 cm, and D7460-Removal of benign nonodontogenic cyst or tumor-lesion diameter up to 1.25 cm as covered services. The Dental Health Care Program for Low-Income Seniors does not currently cover procedures that address the full scope of the needs of older adults who may require an incisional biopsy of a hard tissue (tooth or bone) and benign lesions and cyst or tumors. The clinical need for these biopsies can be urgent, and the older adults served by this program have the obstacle of having to pay the full dental price of these procedures. This is proving to be a barrier to receiving this care and some older adults are forgoing this procedure due to the amount they must pay. Not receiving these procedures could potentially put the older adult at risk of the lesion and cyst or tumor destroying the surrounding bone, tissue, and teeth.

2. An emergency rule-making is imperatively necessary

- to comply with state or federal law or federal regulation and/or
 for the preservation of public health, safety and welfare.

Title of Rule: Revision to Medical Assistance Rule concerning the Addition of Procedures to Schedule A of the Dental Health Care Program for Low-Income Seniors, Section 8.960

REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

The addition of D7285, D7410 and D7460 will benefit program participants as they will have the ability to have biopsies of hard tissue (bone, tooth) completed without paying the full dental price. There will be no costs for any classes.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

Older adults served by the program who would not otherwise be able to afford biopsies on hard tissue would now receive coverage for these procedures, reducing the risk of that a lesion and cyst or tumor might destroy surrounding bone, tissue, and teeth.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

The Department will experience no fiscal impact from this rule change. The funds for the Colorado Dental Health Care Program for Low-Income Seniors are appropriated, and this rule update will have no effect on the appropriation. This rule will not create any added costs to other Departments.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

There will be no costs to the Department and program participants will benefit from affordable hard tissue biopsies. Inaction may result in members failing to receive timely care to avoid the potential risk of the lesion and cyst or tumor destroying the surrounding bone, tissue, and teeth.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

The Department does not foresee any fiscal impact as a result of this rule change and no less costly methods were considered.

Rule Number: MSB 24-05-07-A

Division / Contact / Phone: Special Financing Division / Chandra Vital / 303-866-8086

6. Describe any alternative methods for achieving the purpose for the proposed rule that were seriously considered by the Department and the reasons why they were rejected in favor of the proposed rule.

There are no alternative methods for achieving the use of the new procedures.
