

Dear Provider,

April 10, 2020

Agencies with multiple Provider Health First Colorado (Colorado's Medicaid Provider) IDs can bypass additional training for each ID associated with the agency. This can be done if one Provider Health First Colorado ID has fully completed training and received credentials for the State EVV Solution or the Sandata Data Aggregator (Provider Choice EVV Solution Training).

For those who would like to bypass additional training and have already completed training for one Provider Health first Colorado ID, additional credentials can be requested by contacting Sandata at [cocustomercare@sandata.com](mailto:cocustomercare@sandata.com) or (855) 871-8780.

**Learn More**

Information and updates about EVV are available on the [Electronic Visit Verification web page](#). Providers are encouraged to visit this web page often for the latest EVV information.

Thank you,

Department of Health Care Policy & Financing
