#### Summary of Request

The Department requests \$449,355 total funds comprised of \$216,039 General Fund, \$46,140 in Healthcare Affordability & Sustainability (HAS) Fee cash funds, and 0.9 FTE in FY 2024-25; and \$527,091 total funds comprised of \$291,939 General Fund, \$46,607 in HAS Fee cash funds, and 1.0 FTE in FY 2025-26 and ongoing to support the expanding administrative functions associated with accessibility workgroups and the Senior Dental Grant Program. Proper administrative support is critical to ensure staff can provide services to members that they need these programs. This request addresses the Governor's Transform Technology in the State Wildly Important Goals (WIGs).

This represents an increase of less than 0.05% of the Department's FY 2023-24 Long Bill total funds appropriation.

| Requires<br>Legislation | Equity Impacts | Impacts Another<br>Department? | Statutory Authority |  |  |
|-------------------------|----------------|--------------------------------|---------------------|--|--|
| No                      | Positive       | No                             | 25.5-5-401, C.R.S.  |  |  |

#### **Current Program**

The Department administers Health First Colorado (Colorado's Medicaid program), the Child Health Plan Plus (CHP+), and other public health care programs for Coloradans who qualify and is regulated by the Centers for Medicare & Medicaid Services (CMS) and per 45 CFR § 75.303(a). Programs require administrative staff to provide business and program administrative support to ensure day-to-day operations operate efficiently and effectively.

The Department has a robust administrative support staff that manages various aspects of Department's programs to include the Senior Dental Grant program and the OIT Accessibility program.

#### **Problem or Opportunity**

The programs administered by the Department continue to grow in scope and complexity. The Department's administrative resources have not grown commensurately, resulting in an imbalanced workforce to support important programmatic changes, many of which are legislatively mandated. The Department is not adequately staffed to provide the proper level of administrative support in several key areas, described below.

The Department received temporary resources to comply with HB 21-1110 "Colorado Laws for Persons with Disabilities". The bill required that all documents that are public facing be accessible, which tasked the Department with reviewing and remediating any content that failed accessibility standards. Those resources will expire June 30, 2024, but the work of reviewing and remediating will continue in perpetuity.

The Department has identified a need for contractual resources to improve the administrative efficiency of the Senior Dental Grant Program. The Department was allocated only 1.0 FTE to administer the Senior Dental Grant Program, which is insufficient to ensure eligibility requirements are met and to prevent duplicative or inappropriate claims and billing. The Department is under-resourced to oversee this program, which leads to inefficient processes and increases the risk of misuse of state funds.

#### **Proposed Solution and Anticipated Outcomes**

The Department requests \$449,355 total funds comprised of \$216,039 General Fund, \$46,140 in Healthcare Affordability & Sustainability (HAS) Fee cash funds, and 0.9 FTE in FY 2024-25; and \$527,091 total funds comprised of \$291,939 General Fund, \$46,607 in HAS Fee cash funds, and 1.0 FTE in FY 2025-26 and ongoing to enhance administrative staffing and contractual resources that support the expanding roles and responsibilities in the accessibility workgroups and the Senior Dental Grant Program.

The request to add dedicated FTE and contractor funding will provide:

- Ongoing staff to ensure compliance with web content accessibility guidelines
- Contractual resources for the administration of the Senior Dental Grant Program

#### Accessibility/HB 21-1110 Compliance

The Department is requesting 1.0 FTE at the Program Management I classification and \$250,000 in contractor funding ongoing to achieve and maintain compliance with nondiscrimination laws, including the requirements of HB 21-1110, by July 1, 2024.

As outlined in HB 21-1110, the Department was required to create and submit an Information Technology (IT) Accessibility Adoption Plan to the Office of Information Technology by June 30, 2022. The plan provided the roadmap that accounts for the Department's unique need while also capitalizing on the collaboration between agencies with addressing similar problems. The plan included taking inventory of all technology touchpoints, assessing them for accessibility compliance, then remediating the problems. During the inventory stage, the Department received temporary resources to comply with the bill; however, those are ending, and the Department needs ongoing FTE and contractor resources to continue this work since it is not a one-time fix and will need to be monitored ongoing.

Section 508 of the Rehabilitation Act of 1973 is a federal law that requires agencies to provide individuals with disabilities equal access to electronic information and data comparable to those without disabilities. Non-compliance with Section 508 can pose a liability to the State, lead to fines and those entities receiving federal funding could have it revoked.

The requested FTE would manage the process of reviewing and remediating all websites, digital content, and applications to ensure full compliance with regulations and standards, such as the Web Content Accessibility Guidelines (WCAG) 2.1 and Section 508.<sup>3</sup> State agencies are responsible for complying with these guidelines when creating and publishing any online content

<sup>1</sup> https://codemantra.com/ada-section-508-non-compliance-penalty/

<sup>&</sup>lt;sup>2</sup> https://www.3playmedia.com/blog/federally-funded-programs/; https://my.mnbar.org/blogs/harold-obrien1/2021/04/26/understanding-the-risk-of-web-accessibility-lawsui

<sup>&</sup>lt;sup>3</sup> <a href="https://www.w3.org/WAI/fundamentals/">https://www.w3.org/WAI/fundamentals/</a>; International Web standards, current version 2.1, level AA criteria. Colorado Department of Information Technology.

and materials and must develop mechanisms for evaluation of technology accessibility. The Department faces significant remediation complexities, such as a heavy reliance on counties, external vendors, and contractors to develop content and perform remediation and the need for manual testing of sites/applications that contain Protected Health Information (PHI). The contractor funding would be used to convert certain files to an accessible format for people with learning disabilities and cognitive limitations that are outside of the Department's capabilities for accessibility conversion. There will be an ongoing need to test and remediate websites, applications, and materials aimed at specific audiences and to maintain the accessibility and usability. Providing accessible web content and IT services will substantially decrease the risk for future fines and litigation per HB 21-1110, and any future federal enforcement actions under the Americans with Disabilities Action.

#### Senior Dental Grant Program Administration

The Department is requesting \$75,000 in FY 2024-25 and \$150,000 in FY 2025-26 and ongoing to contract with a third-party administrator to perform administrative functions for the Colorado Dental Health Care Program for Low Income Seniors (Senior Dental Grant Program) including the invoicing, reporting, and eligibility verification processes.

The Senior Dental Grant Program was established under SB 14-180, "Dental Health Care Program for Low Income Seniors," and serves seniors 60 and over with income at or below 250 percent of the federal poverty guidelines who do not have Medicaid or any other dental coverage by providing grants throughout the state to Area Agencies on Aging, public health agencies, Community Health Centers, private dental practices, and other community-based organizations. In FY 2021-22, there were over 29 program grantees with total grant payments approximately \$4.0 million, and the number of seniors served by the program is approximately 3,000. House Bill 19-1326, "Rate Flexibility on Existing Procedures in the Colorado Dental Health Care Program for Low-Income Seniors," required the Department to review the operation and effectiveness of the program. The report identified a gap in the current resources available for the administration for the program and that contracting with a third-party administrator would improve administrative efficiency.

Currently eligibility is determined at the grantee level and invoices require manual processing and review by one Department staff. There is no prior authorization process such that seniors could receive time-limited services from multiple grantees, resulting in overpayment of grants to grantees. The Department is requesting contractual services to streamline these administrative functions currently completed by grantees and limited Department staff. A third-party administrator would reduce the administrative burden on grantees and improve program efficiencies, which would attract and retain grantees and allow more seniors to be served.

The third-party administrator would be responsible for invoicing, reporting, and eligibility verification processes, which would be more consistent with traditional dental care payers, easing grantee burden. The administrator would be responsible for maintaining the database of claims including patient, provider, and procedure information, generate and distribute necessary reports, and integrate a live reporting feature to track allocated grantee funds in real-time. This

would provide all parties with a mutual understanding of remaining grant funds. The administrator's reporting system would provide pre-authorization capabilities and appropriately adjudicate claims based on program criteria.

Efficient administrative functions improve program compliance and integrity by reducing misappropriation of funds or paying for duplicate benefits. This program is currently operated like a paper-based claims system with no ability for grantees to know when seniors are receiving duplicate benefits. Reducing administrative burden and improving efficiency are aligned with Operational Excellence, Care Access, and Member Health areas of focus.

#### Wildly Important Goals and Department Pillars

This request would directly support the Department's Pillars, the Governor's Wildly Important Goals (WIGs), and the Health Cabinet's WIGs described in the FY 2023-24 Department Performance Plan<sup>4</sup>. Specifically, this request would support.

- The Keep Coloradans Covered WIG through prioritizing a strong commitment to ensuring all Coloradans can access all the Department's programs, services, and activities by removing accessibility barriers to understand and gain entry into Colorado Medicaid health care systems; and
- The Governor's Transform Technology in the State WIG by ensuring all Coloradoans have accessibility to information technology infrastructure.

#### Supporting Evidence and Evidence Continuum

The Department believes this request falls on Step 1 of the evidence continuum. The resources needed to support these administrative functions will allow the Department to more timely implement new projects and complete programmatic changes. This will be part of the performance management goals implemented for each of the relevant sections at the Department.

#### **Promoting Equitable Outcomes**

The Department anticipates a positive equitable outcome with this request.

This budget request positively impacts existing equity gaps for historically underserved groups by removing barriers and improving usability and accessibility for all Coloradans. Underserved groups who will be positively impacted by this proposal include individuals with disabilities, including individuals with learning disabilities and cognitive limitations, as well as low-income

<sup>&</sup>lt;sup>4</sup> https://docs.google.com/document/d/1Kf8\_gUDmqVTvao5vn\_MEMyY4pkfIH-6xE-Jg-fLFZbI/edit#heading=h.g7l3tqqoumk2

individuals without disabilities who also face barriers to access the Department's services, such as rural community members, working parents, and people with limited English proficiency.

#### **Assumptions and Calculations**

Detailed calculations for this request are included in Appendix A.

The Department assumes the requested FTE would be a full-time permanent and ongoing position starting July 1, 2024, with a one month hiring delay. The Department assumes this FTE would be eligible for 50% federal matching funds as part of standard Medicaid administrative federal financial participation (FFP). The Department assumes the state share of funding would be General Fund and HAS Fee cash funds, based on current traditional and expansion caseload estimates. Currently the expansion population is about 17% of total caseload.

Accessibility contractor costs were calculated based on the number of hours needed and on current contractor rates for conversion of member facing websites into accessible compliant sites.

Contractor costs for the Senior Dental Grant Program Administration is based on the scope of the project, as identified in the HB 19-1326 report. The Department projects that it would take time to procure the contract and that it would be implemented on January 1, 2025, resulting in a half-year impact in FY 2024-25.

Table 1: FTE Description

| Initiative    | Position<br>Classification | Position<br>Name                    | FTE | Description  |
