

COLORADO

Department of Health Care
Policy & Financing

303 E. 17th Avenue, Denver, CO 80203

Information & Background

Doulas seeking to become an approved provider with **Health First Colorado (Colorado's Medicaid program)** must meet the qualifications and education requirements established in one of the following pathways:

- **Certification Pathway** – Hold a certification as a certified doula from a certifying body approved by the Department.
- **Experience Pathway** – Demonstrate the minimum requirements and submit all required documentation. For more information on this pathway, visit the Doula webpage.

Note: A designation as an *approved training organization* for the certification pathway is granted to organizations that have applied to be listed on the Doula website and have met the minimum requirements. This designation does **not** constitute an endorsement of the services provided by the training organization. Individuals are responsible for determining whether a training meets their specific needs and preferences.

This list is updated frequently. If you do not see your training organization listed, please contact **HCPF Maternal Child Health** to discuss further.

For individuals applying to provide doula support to Health First Colorado members under the certification pathway who have received a certificate of completion from **DONA International (DONA)** or the **Childbirth and Postpartum Professional Association (CAPPA)**, both organizations are recognized as approved training organizations.

Organizations interested in being listed as an approved training organization for the **Certification Pathway** may access the application using the provided link.

Please note: This list reflects *doula training organizations*, not Health First Colorado doula providers.

(*) Indicates training is offered in languages other than English

Approved Doula Training Organizations
