

# HBU Rate Plan

Colorado SNF rates are set in statute

HBU aims to alleviate cash flow concerns for SNFs caring for high needs individuals

- Offsets are required to meet the statutory requirements

# HBU Rate Plan

We do not know what the cost/day will be.

RUG rates are used as a benchmark and function similar to an interest free loan

95% of RUG rate is offset vs. actual costs -> this mimics a ~5% ROI with cash flow provided ahead of time
