HCPF Memo Series can be accessed online: <https://www.colorado.gov/hcpf/memo-series>

Purpose and Audience:

The Colorado Department of Health Care Policy & Financing (Department) invites the public to comment on proposed Transitional Living Program (TLP) regulation revisions provided under the Home and Community-Based Services (HCBS) Persons with Brain Injury (BI) waiver.

Information:

TLP is a post-acute residential setting for members with recent neurologic damage. The TLP service is designed to help members successfully transition back home after the injury. The Department reimburses providers of this service through a per diem payment. Members are responsible for paying room and board directly to the provider. All the other HCBS residential benefits adhere to the annually established room and board amount set by the Department. The proposed changes to the regulations would remove the \$400 cap for room and board and allow the Department to align the room and board for TLPs with the other residential settings.

Revisions to these regulations will align language pertaining to the TLP room and board amount to the established process utilized for all the residential settings.

The Department would like to encourage stakeholders to review all changes to regulations 8.516.30 – Transitional Living Program and provide any comments and feedback about the proposed changes. The public comment period will run until February 12, 2021. Please submit comments and feedback to the email address below.
