HCPF Memo Series can be accessed online: <https://www.colorado.gov/hcpf/memo-series>

Purpose and Audience:

The Purpose of this informational memo is to inform stakeholders, including Community Centered Boards (CCBs) and Family Support Services Program (FSSP) participants of the opportunity to provide feedback to the Department regarding the rule revision to 10 CCR 2505-10 8.613, affecting the FSSP. The Department would like to review the revisions to the regulations with stakeholders prior to presenting them to the Medical Services Board for review.

Information:

The Family Support Services Program (FSSP) is a state funded program designed to help families keep members with an intellectual or developmental disability or delay in

the family home. The program helps cover costs associated with the individual's disability that the family would not otherwise incur and is not covered by other means.

The Department has worked with stakeholders over the past year to revise the regulations which will allow for increased program oversight, consistency across the state, and will ensure that families who need the funding most will receive it first.

The meeting agenda and draft rules will be posted on the following website prior to the meeting:
