The provider has uploaded an informed consent template to be used when an individual's right is to be modified. The provider has updated all documentation to be in plain language so that all individuals understand. The provider has ensured that all staff have been trained in person-centered care and records of that training were noted to be uploaded in the document section of the PTP.</p>

Summary of Findings From Desk Review and/or Site Visit(s)

The state reviewed the Provider Transition Plan (PTP) and supporting materials submitted by the provider for this setting. In 2018, 2019, and 2020 the provider submitted updates to its Provider Transition Plan (PTP) including revised documents and additional evidence (e.g., photographs). Through an iterative process, the state worked with the provider to ensure that the PTP accurately identified all compliance issues and heightened scrutiny triggers and reflected resolution of all such issues.

The state reviewed the following materials submitted by the provider:

- Rights of Persons Handout
- Grievance/Complaint Policy
- Medication Policy
- Mistreatment Policy
- Physical Intervention Policy
- Incident Reporting Policy
- Money Management Policy
- Lease/Residency Agreement
- Admission/Discharge Policies
- House Rules
- Recent Month Calendar of Community Activities
- Choice in Roommates document
- Informed Consent template
- Pictures of installed bathroom locks
- Proof of training for Person-Centered Principles

If the provider updated any of these materials, the findings in this evaluation reflect the most recent version of each item.

A site visit was conducted on 10/24/2016. During the site visit, state staff observed the setting, spoke with the provider staff, and spoke with individuals outside the presence of provider staff to learn about their lived experience at the setting. State staff reviewed the setting's policies and procedures, and other documents.

At the time of the visit, a number of compliance issues were identified and a remediation plan discussed. The provider has since provided evidence of compliance, for all of the setting specific compliance issues. The provider has ensured that all individuals have independent access to the setting, have lockable bathroom doors, and a keyed bedroom lock. The provider modified house rules to allow for visitors at any time. The provider modified the money management policy to ensure individuals have access to their funds at any time. The provider trained all staff in Person-Centered Thinking principles. The setting is in full compliance with the HCBS Settings Final Rule.

Summary of individual interviews: Interviews were conducted on 10/24/2016. All three individuals reported feeling respected by staff. Interviews also reflected that individuals had full access to all common areas, being able to leave the facility when they want, support to participate in community integrated activities, as well as being able to have visitors at any time. Interviews did not result in concerns about individual rights.

The Individual/Family/Advocate (IFA) Survey results were reviewed, and no comments were submitted for this setting.
