Summary of Findings From Desk Review and/or Site Visit(s)

The state reviewed the Provider Transition Plan (PTP) and supporting materials submitted by the provider for this setting. Through an iterative process, the state worked with the provider to ensure that the PTP accurately identified all compliance issues and heightened scrutiny triggers and reflected resolution of all such issues (or a plan to timely finish doing so).

The state reviewed the following materials submitted by the provider

- Rights of Persons Handout
- Grievance/Complaint Policy
- Medication Policy
- Mistreatment Policy
- Physical Intervention Policy
- Incident Reporting Policy
- Money Management Policy
- Lease/Residency Agreement
- Admission/Discharge Policies
- House Rules
- Recent Month Calendar of Community Activities
- Informed consent policy
- Proof of camera removal
- Front keypad and room door locks
- Plan to decrease isolation
- Emergency Control Procedures, Safety Control Procedures and Restraints of Persons Served

If the provider updated any of these materials, the findings in this evaluation reflect the most recent version of each item.

Summary of individual interviews

During the initial site visit on 3/15/2017, two individuals were interviewed. One individual stated she asked to move to another group home, which later, the provider followed up by supporting her to move elsewhere. Both individuals said family mostly took them out into the community, as opposed to their residential staff. They also said staff were nice and respectful. Both individuals stated they could access all areas of the home.

Since the site visit in 2017, the provider reported that all previous individuals in the home moved to other locations.

No IFA survey respondents at this setting.

Remediation Plan (If Not Already Implemented) & State Oversight to Verify Implementation

As described above, state staff have verified via desk review the implementation of a number of required changes to policies and procedures and other provider documents. State staff will visit this setting upon the provider's confirmation that it has finished implementing the remaining changes, in order to confirm that this is the case.
