The ability of a CHP+ member to select a particular HMO is dependent on where the CHP+ member resides. A pre-HMO enrollment period is the span of time from a member's application date until the member is enrolled in a CHP+ participating HMO. The State Managed Care Network delivers care during this span.

State Managed Care Network is available in all counties. It is also available during the presumptive eligibility and pre-HMO enrollment periods, as well as enrollments for prenatal clients.

DH - Denver Health Medical Plan services these counties only

*Effective 10/1/14

- Colorado Access HMO will begin providing services to CHP+ children in Cheyenne County.

"The mission of the Department of Health Care Policy & Financing is to improve health care access and outcomes for the people we serve while demonstrating sound stewardship of financial resources."
