

COLORADO
Department of Health Care
Policy & Financing

Dear Provider,

Providers of prenatal, birth or postpartum care (i.e. OB/GYN, doula, nursing professional, other supporting perinatal care provider or community stakeholder) are invited to share thoughts and reflections on providing perinatal care in the community.

A series of listening sessions organized by the Regional Accountable Entities (RAE) are being hosted as a follow-up to the [2020 Maternal Health Equity Report](#). Data on recent health trends among birthing people based on region will be presented and attendees will be invited to share their experiences. This data will be available on the next maternal health care experiences and outcomes report for Health First Colorado (Colorado's Medicaid program) members. Attend the specific session for the applicable RAE region or any session as time allows. Contact Anoushka Milllear at Anoushka.Milllear@state.co.us with any questions.

RAE 3, 5 and Denver Health

Date: [Monday, September 25 - Zoom Registration](#)
