

Meet the CFC Team

There are 7 Department staff members that are working on Community First Choice (CFC) implementation. Each staff member will play a different role to ensure the council meetings run successfully. In this section, you can find the list of individuals working on this project, and their area of focus in the CFC project.

Any questions that may arise will be answered by one of these 7 individuals depending on the content in the question.

If you have any questions regarding CFC or the Council, it is best to email hcpf_cfc@state.co.us as that inbox is monitored by everyone on the team.
