

**Mission:**

**Work collaboratively with all stakeholders and the state of Colorado to continuously improve self-directed programs through effective policy change.**

**Values:**

**Provide people with disabilities and their families the opportunity to live independently and direct their care through self-determination. This includes freedom, budgeting authority to including an offering a livable wage and employer authority, support in the community as well as at home, assuming the personal responsibility that is required to implement and maintain these programs, and therefore giving us personal confirmation that we can direct our own care and take a leadership role in the community if we choose to.**

- Values and mission. Briefly clarify and use these to establish our goals for the next fiscal year. Discuss and revise as listed above. Final discussion and approval at the next meeting if additional changes are needed.
- True brainstorming. Throw everything up against the wall. No bad or stupid ideas we will figure that out later.
  - Increase caregiver base wages and request increases as cost of living increases.
  - Authorized representative paid enhanced... administrative as a time allocated task?
  - Pediatric task additions as age appropriate,
  - Latin American/ immigrant hiring options,
  - 2-minute rule or, as directed by the Co-chairs.
  - PPI and healthcare are ok in meetings with the understanding information is confidential, protected I'm only being used to represent a point of view or situation.
  - Spread the word waivers and Medicaid and participate direction through CFC,
  - Additional tasks and case manager task training,
  - Enhanced task training for members,
  - CMA CDASS Training, Mandatory training,
  - CDDO training IHSS, CDASS and other participant directed programs training need to stay current and relevant. Especially considering changes with case management agencies as well as HCBS Waiver migration going into effect through CFC.
  - Beyond the system CMA Training
- Prioritize S.M.A.R.T. goals by defining the most important!
  - Specific
  - Measurable
  - Attainable
  - Realistic
  - Timely
- Finalize our goals. Pick our top three or four priorities. The big rocks! 80/20 rule. What items solve our most urgent and biggest problems right now.
- Establish a timeline.
- Determine the date to outline and share with the collaborative.

Meaning chat room information and notes an important links.
