

**COLORADO**

Department of Health Care  
Policy & Financing

Dear Pediatric Behavioral Therapy Providers,

Effective January 28, 2021, Pediatric Behavioral Therapy (PBT) services provided via telemedicine (billed as Place of Service 02 - Telehealth) do not require Electronic Visit Verification (EVV) records:

- Previous Remittance Advice records show Error 3054 when PBT telemedicine claims were missing EVV records. Remittance Advice records for the billing periods after January 28, 2021, will no longer show Error 3054 for these telemedicine claims missing EVV records.
- PBT telemedicine claims billed for Dates of Service prior to January 28, 2021, do not require EVV records.
- PBT services provided in EVV-required locations, as shown in the [Colorado EVV Types of Service Billing Conditions and Code Inclusions section of the EVV Program Manual](#), continue to require EVV records.

PBT Providers that only bill for telemedicine services will no longer receive Department outreach offering support for EVV compliance.

Contact [EVV@state.co.us](mailto:EVV@state.co.us) with questions or concerns.

Thank you,

Department of Health Care Policy & Financing
