

PAS Level II Cheat Sheet for Hospital Discharge Planners

Speeding up the process

1. ____ The pt. is medically stable
If not, inform the Level II evaluator **ASAP** so they will not waste a visit
2. ____ The pt is aware and agrees to NF placement
If not, who has the legal authority to place? _____
3. ____ Required labwork is complete – TSH for depression dx; lithium, tegretol levels prn; UA for UTIs; etc.
4. ____ Copies are ready for evaluator – face sheet, H&P, MARs, labs, psych consult, etc
5. ____ PRN psych meds are identified– dosages and frequency given
6. ____ Dementia diagnoses are substantiated– neuro review, MSE, etc
7. ____ Mental Health treatment/placement issues are identified and appropriate agencies contacted– 27-10 certifications, special care plans, behavioral needs, etc.
