

## SUD Provider Engagement Opportunities

SUD providers are encouraged to participate in general provider forums and meetings, in addition to broad Behavioral Health forums and meetings, and are strongly encouraged to engage with HCPF and the MCEs in SUD specific forums and office hours.

Below are a series of ongoing opportunities available to providers. Many of these sessions require registration to allow for planning based on attendance and to prepare responses and presentations designed to address questions often submitted in advance. A calendar of BHIC events is in development to create a centralized place to find all of these provider engagement opportunities.
