1. Introduction

This manual is issued by the Department of Health Care Policy and Financing (HCPF), the administrator of Health First Colorado (Colorado's Medicaid program). It is intended to serve as guidance for substance use disorder (SUD) treatment providers seeking reimbursement for residential and inpatient SUD treatment and withdrawal management (WM) services beginning January 1, 2021. The manual outlines eligibility requirements, provider enrollment procedures, provider qualifications, billing documentation, and other service-related criteria that SUD providers must meet to be eligible for reimbursement through Health First Colorado. It also provides information regarding billing codes.

2. Background

From 2006 to January 2021, Health First Colorado's coverage of SUD services included: early intervention, outpatient, intensive outpatient SUD treatment and social detox services. Coverage for residential and inpatient SUD treatment and withdrawal management services is being added to ensure that members have access to the full continuum of SUD services through their Health First Colorado benefits.

The goal of adding inpatient and residential SUD treatment services is to complete the Colorado SUD continuum of care to improve health outcomes, promote long-term recovery, and reduce overdose deaths.

In order to achieve this goal, Health First Colorado is working toward the following objectives:

- Increase access to necessary levels of care by adding Health First Colorado coverage for inpatient and residential SUD treatment, including WM services;
- Ensure that members receive a comprehensive assessment and are placed in an appropriate level of care;
- Further align the state's SUD treatment system with a nationally recognized SUD-specific standard;
- Increase provider capacity where needed; and
- Improve the availability of Medication Assisted Treatment (MAT) to promote long-term recovery.

3. Delivery System

Since 1995, Colorado has operated a mental health capitation and managed care program under a 1915(b) waiver from the federal government. Health First Colorado's behavioral health capitation is currently administered by seven Regional Accountable Entities (RAEs). Each RAE is responsible for ensuring access to care for the members in their designated region of the state. In order to do so, the RAEs contract with and reimburse a network of specialty behavioral

health providers under the capitated behavioral health benefit. All providers must be contracted with the appropriate RAE(s) in order to receive reimbursement for behavioral health services delivered to Health First Colorado members. When Health First Colorado coverage is authorized for residential and inpatient SUD services, the RAEs will manage the entire SUD continuum of care under the behavioral health capitation. The rare instance in which services will not be managed by the RAEs are cases where a newly eligible member is not yet enrolled with a RAE. Services for members not yet enrolled with a RAE will be billed directly to Health First Colorado on a fee-for-services basis. More information about the RAEs can be found in **Section 7: The Role of Regional Accountable Entities (RAEs)**.

4. Residential and Inpatient SUD Benefit Policies

Medical Necessity and SUD Diagnosis

A clinical determination of medical necessity is required for reimbursement of services. Medical necessity will be based on the ASAM Criteria and will be determined by the RAEs acting as Health First Colorado's agent in administering the benefit. Members must have a current SUD diagnosis to be eligible for Health First Colorado's payment of these services.

Length of Stay

The length of stay covered by Health First Colorado will be determined by the RAEs based on their assessment of medical necessity. Continued residential or inpatient stays will be determined by progress in treatment and continued medical necessity.

Prior Authorization

Prior authorization will be required for all residential and inpatient SUD treatment services. Prior authorization will not be required for withdrawal management stays; however, medical necessity must be present in order to receive reimbursement.

Co-Pays

There are no co-pays required for SUD services.

Transportation

Transportation to and from SUD treatment services is available through Health First Colorado's [non-emergent medical transportation \(NEMT\)](#) benefit.

5. Member Eligibility

To qualify for residential and inpatient SUD services, individuals must:

- be enrolled as a member with Health First Colorado
- have a SUD diagnosis, and
- demonstrate medical necessity for the level of care recommended for their SUD treatment or withdrawal management.

6. Provider Requirements

All providers that seek reimbursement for residential and inpatient SUD services will need to be:

1. Licensed with the Office of Behavioral Health.
2. Enrolled with Health First Colorado.
3. Contracted and credentialed with the Regional Accountable Entity (RAE).

Note: Health First Colorado cannot pay for room and board in residential treatment settings. Residential treatment providers seeking reimbursement for room and board must be contracted with the Managed Service Organization (MSO) that serves their region. More information can be found in **Section 8: The Role of Managed Service Organizations**.

Health First Colorado does pay for room and board in inpatient settings; therefore, providers classified as hospitals will submit claims to the RAE using revenue codes and will be reimbursed for both treatment and room and board. Hospitals do not need to submit room and board claims to the MSO.

Provider Licensing

Prior to enrolling with Health First Colorado, providers must be licensed with the Colorado Department of Human Services, Office of Behavioral Health (OBH). The OBH SUD treatment license identifies the level of care provided based on the ASAM Criteria, and any specialized populations an agency serves. Providers will need to be licensed for the specific ASAM level of care that they will render and bill to Health First Colorado. Documentation of licensure is required at the time of enrollment.

Out of state providers may also enroll with Health First Colorado to bill for residential and inpatient SUD services. Those providers must demonstrate equivalent licensure in the state in which they are located, for the level of care that they offer.

For more information about the ASAM Criteria, see *The ASAM Criteria: Treatment Criteria for Addictive, Substance-Related, and Co-Occurring Conditions (2013)*.

For more information about licensing, see the [OBH Designation and Licensing website](#).

Every treatment professional within an agency must be licensed or supervised by a licensed SUD treatment professional as defined under Colorado Code of Regulations found at [2 CCR 502-1](#). The [Colorado Department of Regulatory Agencies \(DORA\) Division of Professions and Occupations](#) licenses SUD treatment professionals.

Provider Enrollment

In order to be reimbursed for services, SUD providers must be enrolled with Health First Colorado as a Substance Use Disorder - Clinic (Provider Type 64). Providers offering residential

and inpatient services will also need to enroll with the Specialty Provider Types associated with the ASAM level of care they are licensed to provide and intend to bill to Health First Colorado. Provider type/specialty details on this are found [here](#). Providers already enrolled as Provider Type 64 with Health First Colorado must add the new Specialty(ies) even if they are already enrolled and billing for other services. The specialty types by ASAM level are as follows:

ASAM Level	Specialty Type
3.1	871
3.3	872
3.5	873
3.7	874
3.2WM	875
3.7WM	876

New Providers

New SUD providers may enroll under the Provider Type and specialty(ies) by applying through the [provider enrollment portal](#), a secure website that is accessible 24 hours a day, seven days a week. Once enrollment is approved, the provider will receive a Medicaid Provider identification number (ID) and a welcome letter. Please see the Provider Enrollment Manual for detailed instructions on how to enroll in the provider enrollment portal.

Existing Providers

Existing providers may add additional specialties to their current profile by logging in to the Provider Web Portal and submitting a Provider Maintenance request. (Do not begin a new enrollment application.) Once the update is approved, the specialty(ies) requested will be added to the existing profile. Please see the Provider Maintenance Quick Guides for help completing the request.

Contracting with the RAE

To bill for treatment services, a provider must be contracted with and credentialed by the RAE. Providers must be contracted with all RAEs that it intends to bill. If a provider renders treatment to a member of a RAE that it is not contracted with, reimbursement is not guaranteed. More information can be found in **Section 7. The Role of Regional Accountable Entities (RAEs)**.

7. The Role of Regional Accountable Entities (RAEs)

RAE Credentialing and Contracting

Treatment providers must credential and contract with each Regional Accountable Entity (RAE) that they plan to bill for services. As with other services under the behavioral health capitation, individual providers will contract directly with the RAEs. Clinical services are billed to individual RAEs.

RAE Prior Authorization Review Process

The process for submitting prior authorization requests is as follows:

1. The treatment provider will conduct an assessment and determine the appropriate level of care for that individual based on the ASAM Criteria.
2. The ASAM Criteria will be utilized to aid the provider in matching the member's needs to a level of care where they can be addressed.
3. Once the provider has made a level of care determination, they will be required to submit a request for prior authorization to the RAE that manages that member's Health First Colorado services.
4. The RAE will review the recommendation for treatment and ensure that medical necessity exists for the ASAM level of care being requested. They will issue an approval or denial for the request based on this review.

Prior authorizations will be required for all treatment stays. Prior authorization is not required for admission to withdrawal management services; however, the provider should ensure that medical necessity is met for the level of WM care being provided. All services are subject to continued stay reviews by the authorizing RAE. Prior authorization determinations will be returned to the provider within 72 hours of submission for treatment services. For Special Connections admissions, prior authorization determinations will be returned within 24 hours of submission.

If a member receives a denial of their prior authorization request, they have the right to appeal the decision. This process may be different depending on the RAE. Information about each RAE's appeal process can be found here:

[Colorado Access](#)

[Colorado Community Health Alliance](#)

[Health Colorado](#)

[Northeast Health Partners](#)

[Rocky Mountain Health Plans](#)

Note: Claims sent fee-for-service (FFS) to Health First Colorado do not require prior authorization.

Out-of-State Providers

RAEs are required to have a statewide network of providers across the SUD continuum. In rare cases where a member has a need to receive care outside of the state, services may be provided by an out-of-state provider that meets the same provider requirements outlined above. Enrollment of out-of-state providers will be allowed on a case-by-case basis and approvals require review of the license issued by the state in which they are located. Out-of-state providers should initiate enrollment with Health First Colorado and contact a RAE prior to seeking reimbursement for services in Colorado.

RAE Billing Documentation Requirements

Please see **Appendix B** below for documentation requirements.

8. The Role of Managed Service Organizations (MSOs)

Managed Service Organizations (MSOs) are contracted agents of the Office of Behavioral Health. Each MSO serves a distinct region of the state. MSOs can provide payment for room and board for SUD services.

Due to federal regulations, Health First Colorado cannot pay for room and board for SUD services rendered in residential treatment settings. In order to be reimbursed for room and board, residential providers must be contracted with the MSO that serves the region in which their facility is located. Providers will bill the MSO for Room and Board. More information about the MSOs and which regions they serve can be found [here](#).

Hospitals do not need to submit room and board claims to the MSO.

9. Special Connections

Special Connections services are specialized SUD services for pregnant and parenting individuals up to one year postpartum. The services will continue to be available to Health First Colorado members and OBH will credential providers as Gender Responsive Treatment Providers.

Special Connections providers will need to contract with and be credentialed by the RAE to bill for services rendered to Health First Colorado members. Special Connections providers should contract with any RAE that they intend to seek reimbursement from.

Special Connections providers have the following requirements to bill for services:

- enroll as Substance Use Disorder - Clinic (Provider Type 64);
- enroll as Specialty Provider Type 870 (Special Connections);
- enroll as the Specialty Provider Type(s) associated with the ASAM level(s) at which they are rendering care;
- provide documentation of their OBH provider license, as well as their designation for Gender Responsive Treatment, at the time of enrollment.
- use third position modifier HD when submitting claims for services. Coding guidance can be found in the coding pages beginning on page 9.

10. Residential, Inpatient and Withdrawal Management Services

Clinically Managed Low-Intensity Residential Services (ASAM Level 3.1)

SUD Residential Treatment – Clinically Managed Low-Intensity Residential Services: ASAM level 3.1		
CPT®/HCPCS PROCEDURE CODE	PROCEDURE CODE DESCRIPTION	
H2036	Alcohol and/or other drug treatment program, per diem	
SERVICE DESCRIPTION	MINIMUM DOCUMENTATION REQUIREMENTS

Appendix A: Provider Enrollment Guides

1. [Provider Enrollment Manual](#)
2. [Provider Maintenance – Adding a Specialty](#)

Appendix B: Technical Documentation Requirements

Where noted in the coding pages, the following are required as minimum documentation for providing that service:

1. Date of Service (DOS)
2. Start and end time/duration of session (total face-to-face time with member)
3. Session setting/place of service
4. Mode of treatment (face-to-face, telephone, video)
5. Provider's dated signature and relevant qualifying credential. A title should be included where no credential is held.
6. Separate progress note for each service

Appendix C: Relevant Place of Service (POS) Codes

Code	Name	Description
21	Inpatient Hospital	A facility, other than psychiatric, which primarily provides diagnostic, therapeutic (both surgical and non-surgical), and rehabilitation services by, or under the supervision of physicians to patients admitted for a variety of medical conditions.
22	Outpatient Hospital	A portion of a hospital which provides diagnostic, therapeutic (both surgical and non-surgical), and rehabilitation services to sick or injured persons who do not require hospitalization or institutionalization.
49	Independent Clinic	A location, not part of a hospital and not described by any other POS code, that is organized and operated to provide preventive, diagnostic, therapeutic, rehabilitative, or palliative services to outpatients only.
51	Inpatient Psychiatric Facility	A facility that provides inpatient psychiatric services for the diagnosis and treatment of mental illness on a 24-hour basis, by or under the supervision of a physician.
53	Community Mental Health	A facility that provides the following services: outpatient

	Center/Clinic	services, including specialized outpatient services for children, the elderly, individuals who are chronically ill, and residents of the CMHC's mental health services area who have been discharged from inpatient treatment at a mental health facility; 24-hours a day emergency care services; day treatment, other partial hospitalization services, or psychosocial rehabilitation services; screening for patients being considered for admission to State mental health facilities to determine the appropriateness of such admission; and consultation and education services.
55	Residential Substance Abuse Treatment Facility	A facility which provides treatment for substance (alcohol and drug) abuse to live-in residents who do not require acute medical care. Services include individual and group therapy and counseling, family counseling, laboratory tests, medications and supplies, psychological testing, and room and board.
