- A quorum was established, and Mark Ogonosky gave a motion to approve, it was seconded by Karma Wilson, and a final vote was taken, all in favor. Motion carried, June minutes were approved, no meeting in July.

2. P&CE Follow-Up Items and Housekeeping

- **PIAC Meeting Summary:** No July meeting to report on.

3. HB23-1300 Feasibility Study

Emily Holcomb, HCPF and Suman Mathur (CHI)

Research study (mandated in 2023) exploring options to expand HRSN services and continuous eligibility.

Federal changes limit near-term action on continuous eligibility; HRSN implementation via Colorado's 1115 waiver continues in a phased approach. Findings intended to be durable and actionable when windows open.

Focus domains discussed:

- **Housing:** Need for tiered supports (pre-tenancy help, financial assistance, short-term/bridge housing). Importance of **family/household** lens (esp. ages 0-3). Interest in **respite care**, and **end-of-life/hospice-like housing** for people who are unhoused. Clarified that **PSH includes supportive services**; consider modularizing components (room/board vs. services).
- **Nutrition:** Stakeholders prioritized **home-delivered meals** and **pantry stocking**; consider **household-level** provisioning, **congregate meals**, **farmers' market vouchers**, medically tailored options, and **nutrition education**. Emphasis on partnering with **WIC** and leveraging existing curricula.
- **Extreme weather:** Needs for **backup power** (medical devices/phones/food), **safe heating/cooling** (including **evaporative/swamp coolers** where appropriate), **mold remediation**, **utility assistance**, and **temporary housing** after disasters. Explore criteria/priority populations for AC/heating supports.
- **Social & community support:** **Caregiver support** (education, resilience, peer groups), **transportation** to community activities, **case management/navigation** to connect with home visiting and vocational programs, **housing legal assistance**, **childcare**, **translation**, and **internet access** as an enabler.

Stakeholder input highlights:

- **Tenant protections & medical-legal partnerships** (data collection to inform policy; landlord remediation for mold/smoke) – CDPHE.
- **Non-traditional housing:** Support access to services for people living in RVs/without fixed addresses; avoid address-based barriers.
- **Rural access:** “Reverse Meals on Wheels” concept (reimbursing member travel to pick up prepared meals); transportation as a cross-cutting need; consider building **food distribution infrastructure** in underserved areas.
- **Cooling options:** Include **swamp coolers** for cost/humidity benefits; not one-size-fits-all AC.
- **Water quality:** Heat-driven algae blooms strain small systems; interest in **filtration** supports.
- **Screening & data:** Idea to **embed HRSN screening** within the Medicaid application; improve interoperability/SHIE to reduce duplicative screenings.

Timeline: Study in development; goal to publish **early 2026**, with accessible materials; ongoing stakeholder sessions (two August sessions at 11:00 AM and 6:00 PM with Spanish interpretation).

4. Next Steps & Adjournment
